TITLE Rankings of the States, 1970-92. Data-Search Series.

INSTITUTION National Education Association, Washington, D.C. Research Div.

PUB DATE [92]

NOTE 1,676p.; Rankings for some years have been accessioned separately. See ED 025 045 (1967), ED 326 927 (1988), ED 318 110 (1989), ED 326 971 (1990), ED 343 210 (1991), and ED 364 941 (1993).

AVAILABLE FROM NEA Professional Library, P.O. Box 509, West Haven, CT 06515.

PUB TYPE Statistical Data (110)

EDRS PRICE MF14/PC68 Plus Postage.

DESCRIPTORS *Educational Finance; Elementary Secondary Education; Enrollment Rate; Expenditures; Government Role; Income; Population Trends; *Public Schools; *School Statistics; State Norms; Tables (Data); Tax Rates; Teacher Salaries

ABSTRACT

Annual data about public school enrollment, staff and salaries, and related economic topics such as state-local government revenues and expenditures, state population, and the financial support of education are rank-ordered for each year from 1970 through 1992 for the 50 states and the District of Columbia. ## FOREWORD

The 128 ranked lists of state data that constitute this Report present information that may be used in understanding, explaining, interpreting, and possibly evaluating various aspects of state school systems. The range of items, however, illustrates the difficulty of making a defensible single judgment of the effort or the effectiveness of a given state in working on its educational problems. These rankings are not suitable for combining into composite rankings for the 50 state school systems.

It is hoped that the information presented in this Report will be useful in the improvement of education.

GLEN ROBINSON
Director, Research Division

## INTRODUCTION

The figures used in the rankings presented in this Report are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1968-69 estimates for certain items are given along with 1969-70 estimates.

The national totals shown in most tables include the District of Columbia; but because the District comprises a single urban school system, and hence is not comparable to state school systems, figures for it are not shown separately. Data for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands, whenever they are available, are given in a separate listing beginning on page 67.

All dollar amounts for Alaska should be reduced by one-fourth to make the purchasing power of Alaska figures generally comparable to figures reported for other areas of the United States. In the tables where this applies, the appropriate figure and rank for Alaska are given in parentheses.

When the figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank. The numbers at the bottom of each table refer to items in the list of references and to the page from which the basic data were obtained.

# POPULATION

1--Estimates of Total Resident Population, July 1, 1969 ..... 7

2--Percent Change in Total Resident Population, April 1, 1960, to July 1, 1969 .... 7

3--Net Total Migration Rate, 1960 to 1967 ..... 7

4--Estimated School-Age Population (5-17), July 1, 1969 ..... 8

5--Estimated School-Age Population (5-17) as Percent of Total Resident Population, 1969 ..... 8

6--Percent of Population Aged 21-64 in 1968 ..... 8

7--Number of School-Age Children (5-17) per 100 Adults Aged 21-64 in 1968 ..... 9

8--Percent of Population Aged 65 and Older, July 1, 1968 ..... 9

9--Percent Increase in Population 65 Years of Age and Older, 1960 to 1968 ..... 9

10--Number of Live Births per 1,000 Population, 1968 ..... 10

11--Population per Square Mile, 1969 ..... 10

12--Percent of Population That Is Urban, December 31, 1968 ..... 10

## Definitions

Net total migration rate: number of migrant persons per 100 midperiod population.

Population (total): total resident population; it includes persons in the Armed Forces stationed in each area.

School-age population: population aged 5 through 17, inclusive.

Urban population: persons living in (a) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin); (b) the densely settled urban fringe, whether incorporated or unincorporated, of urbanized areas; (c) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 persons or more per square mile; (d) counties in states other than the New England states, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile; and (e) unincorporated places of 2,500 inhabitants or more.

**1--Estimates of Total Resident Population, July 1, 1969**

21--Average Daily Membership in Public Schools, 1969-70 ..... 15

22--Average Daily Attendance as Percent of Average Daily Membership, 1969-70 ..... 15

23--Average Daily Membership as Percent of Cumulative Enrollment, 1969-70 ..... 15

24--Average Daily Membership as Percent of School-Age Population, 1969-70 ..... 16

25--Average Length of Public-School Term in Days, 1965-66 ..... 16

26--Percent of Elementary- and Secondary-School (Public and Private) Enrollment Participating in Federally Subsidized School Lunch Program (Indemnity Plan), 1968 . 16

### Definitions

Average daily attendance: average of pupils attending when schools are actually in session.

Average daily membership: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

Average length of school term: computed by dividing aggregate days attendance by average daily attendance; not a legal term.

Basic administrative unit: the local school district, the unit for the operation of elementary and secondary schools or for contracting for school services.

Enrollment, cumulative: a cumulative count of the number of different pupils registered during the entire school year; new entrants are added, but those leaving are not subtracted; kindergartens are included in elementary-school enrollment; junior high schools are included in secondary-school enrollment; junior colleges are omitted.

Enrollment, fall: the count of the pupils registered in the fall of the school year, usually October; kindergartens are included in elementary school, and junior high schools are included in secondary school; junior colleges are omitted.

## Definitions

Full-time equivalence: the amount of employed time required in a part-time position expressed in proportion to that required in a full-time position, with "1" representing one full-time position. It is derived by dividing the amount of employed time required in the part-time positions by the amount of employed time required in a corresponding full-time position.

Instructional staff in local public schools: number of positions, not the number of different individuals occupying the positions during the school year. Includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior-college staff.

Instructional staff in higher education: those engaged in teaching and related academic research in colleges and universities, including those in hospitals, agricultural experiment stations, and farms.

Non-instructional staff in higher education: cafeteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

Non-instructional staff in local schools: administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems.

Salary: average or arithmetic mean.

### Definitions

High-school graduate: a person who receives formal recognition from the school authorities for completing the prescribed high-school course of study; excludes persons granted high-school equivalency certificates.

Illiteracy: inability to read and write a simple message either in English or in any other language. Not to be confused with functional illiteracy, a term used by the Army in World War II to refer to persons who were incapable of understanding the kinds of writtern instructions that are needed for carrying out basic military functions or tasks. Since that time the term functional illiterate has commonly been used to denote a person who has completed less than five years of schooling.

65--Percent of Households with Cash Incomes of $10,000 or More in 1968 ..... 35

### Definitions

Disposable personal income: estimates of disposable personal income are obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

Household: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

Net effective buying income: same as disposable personal income.

Personal income: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

## 52--Total Personal Income, 1968 (in Millions)

78--Per-Capita Local Tax Collections, 1967-68 ..... 41

79--State Tax Revenue in Fiscal 1968 as Percent of Personal Income in 1967 ..... 41

### Definitions

General revenue: all revenue of a government except the kinds of revenue classified as utility revenue, liquor stores revenue, and insurance trust revenue. All tax collections and intergovernmental revenue, even if designated for insurance trust or local utility purposes, are classed under general revenue.

Property taxes: taxes conditioned on ownership of property and measured by its value.

Revenue from own sources: all revenue of a government (taxes and other) except intergovernmental revenue.

Taxes: compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government; however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

90--Local Public-School Revenue as Percent of State and Local School Revenue, 1969-70 ..... 47

### Definitions

Revenue receipts (NEA estimates): includes all revenue receipts available for expenditures for current expenses, capital outlay, and debt service for public schools, including all appropriations from general funds of federal, state, county, and local governments, receipts from taxes levied for school purposes, income from permanent school funds and endowments, income from leases of school lands, interest on bank deposits, tuition, gifts, etc. Amounts which increase the school indebtedness or which represent exchanges of school property for money are excluded. Revenue receipts from federal sources include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.) Revenue receipts

from state sources include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and/or social security on behalf of public-school employees, for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the cost of textbooks, buses, supplies, etc. purchased by the state for distribution to local school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included. Revenue receipts for public-school purposes from local, intermediate, and other sources include all funds for direct expenditure by local and intermediate districts: for school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and/or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts, and tuition and fees received from patrons.

93--Per-Capita Expenditure of State and Local Governments for Public Welfare, 1967-68 50

94--Per-Capita Expenditure of State and Local Governments for Health and Hospitals, 1967-68 ..... 51

95--Per-Capita Expenditure of State and Local Governments for Police Protection, 1967-68 ..... 51

96--Per-Capita Expenditure of State and Local Governments for Fire Protection, 1967-68 51

97--Per-Capita Expenditure of State and Local Governments for Highways, 1967-68 ..... 52

98--Per-Capita Net Long-Term Debt (Full Faith and Credit Only), of State Governments at End of Fiscal Year, 1968 ..... 52

99--Per-Capita Long-Term Debt of State and Local Governments, 1967-68 ..... 52

## Definitions

Debt: all long-term credit obligations of the government and its agencies, and all interest-bearing short-term (i.e., repayable within one year) credit obligations. Includes judgments, mortgages, and "revenue" bonds, as well as general obligation bonds, notes, and interest-bearing warrants. Excludes non-interest-bearing short-term obligations, interfund obligations, amounts owed in a trust or agency capacity, advances and contingent loans from other governments, and rights of individuals to benefits from employee-retirement funds. Full Faith and Credit Debt is long-term debt for which the credit of the government, implying the power of taxation, is unconditionally pledged. Includes debt payable initially from specific taxes or nontax sources, but representing a liability payable from any other available resources if the pledged sources are insufficient. Nonguaranteed Debt consists of long-term debt payable solely from earnings of revenue producing activities, from special assessments, or from specific nonproperty taxes. Net Long-Term Debt is total long-term debt outstanding minus Long-Term Debt Offsets.

Direct expenditure: payments to employees, suppliers, contractors, beneficiaries, and other final recipients of governmental payments--i.e., all expenditure other than Intergovernmental Expenditure.

Expenditure: all amounts of money paid out by a government--net of recoveries and other correcting transactions--other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

General expenditure: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

Health: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

Highways: streets, highways, and structures necessary for their use, street lighting, snow and ice removal, toll highway and bridge facilities, and ferries.

Hospitals: establishment and operation of hospital facilities, provision of hospital care, and support of other public or of private hospitals. However, see Public Welfare concerning vendor payments under welfare programs.

Net long-term debt: total long-term debt outstanding minus offsets to long-term debt, which comprise financial assets of sinking funds and other reserve funds, however designated, which are specifically held for retirement of long-term debt. Full faith and credit includes all long-term credit obligations of the government and its agencies backed by full faith and credit (implying the power of taxation).

Police protection: preservation of law and order and traffic safety. Includes highway police patrols, crime prevention activities, police communications, detention and custody of persons awaiting trial, traffic safety, vehicular inspection, and the like.

Public welfare: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include: Cash Assistance Payments directly to needy persons under categorical and other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs; welfare institutions; and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its Hospitals and Health agencies are classed under those headings.

111--Total Current Expenditures for Public Elementary and Secondary Schools in 1968-69 as Percent of Personal Income in 1968 ..... 58

112--Percent Increase in Estimated Current Expenditure per Pupil in ADA, 1959-60 to 1969-70 ..... 59

113--Current Expenditures per Pupil in Average Daily Membership, 1968-69 (Revised) 59

114--Current Expenditures per Pupil in Average Daily Membership, 1969-70 ..... 59

115--Expenditure per Student Enrolled in Federally Aided Vocational Programs, 1967 60

116--Pupil Transportation Expenditures as Percent of Current Expenditures for Public Elementary and Secondary Schools, 1967-68 ..... 60

117--Average Cost of Transportation per Pupil Transported, 1967-68 ..... 60

118--State Direct Expenditures for Public Welfare and Correction as Percent of State Direct Expenditures for All Education, 1968 ..... 61

## Definitions

Average daily attendance: average of pupils attending when schools are actually in session.

Average daily membership: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

Current expenditures (USOE and NEA series): all amounts spent at all levels of administration--state, intermediate, and basic local--for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the intermediate (county) departments of education; employers' (state, intermediate, and local) contributions to retirement systems and/or social security on behalf of public-school employees; and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

Education: provision or support of schools and other educational facilities and services. The Local Schools category comprises all direct expenditure by local governments for education, other than any direct spending for institutions of higher education, and any direct state government spending for operation of or facilities and supplies for elementary and secondary public schools. Institutions of Higher Education includes facilities and activities of all educational institutions beyond the high-school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis. Other Education includes all federal expenditure for education (with the service academies, however, classified as part of National Defense and International Relations), state supervision of schools and colleges, and state tuition grants, fellowships, aid to private schools, and educational programs for the handicapped, adults, veterans, and other special classes.

Personal income: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes nonmonetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

# INDEX

Numbers refer to the tables.

Average daily attendance:
- expenditures per pupil, 107, 109
- expenditures per pupil, increase in, 112
- expenditures per pupil as percent of national average, 108, 110
- expenditures per pupil as percent of personnel income, 111
- as percent of cumulative enrollment, 20
- percent in average daily membership, 22
- public-school revenue per pupil, 80, 81
- total, 19

Average daily membership:
- expenditure per pupil, 113, 114
- as percent of average daily attendance, 22
- as percent of enrollment, 23
- as percent of school-age population, 24
- personal income per child, 57
- total, 21

Births:
- rate, 10

Crimes:
- change in rate, 128
- number per 100,000 population, 127

Deaths:
- infant death rate, 126

Dentists:
- number per 100,000 population, 125

Educational attainment:
- median school years completed by adults, 46
- percent of ninth-graders graduating from high school, 48
- percent of population illiterate, 47
- percent of Selective Service draftees failing mental tests, 50, 51

Employment:
- government employees as percent of non-agricultural employees, 123
- number of federal civilian employees per 1,000 population, 121
- number of government employees per 1,000 population, 122

Enrollment:
- as percent of school-age population, 16
- percent in average daily attendance, 20
- percent in average daily membership, 23
- percent participating in school lunch program 26
- public-school, percent change in, 17
- public-school as percent of total school enrollment, 18
- total public-school, 14, 16

Federal government:
- expenditure per pupil in vocational programs, 115
- number of civilian employees per 1,000 population, 121
- percent of school revenue from, 88, 89
- state acreage owned by, 120

Fire protection:
- per-capita state and local government expenditures, 96

Health and hospitals:
- birth rate, 10
- infant death rate, 126
- number of dentists per 100,000 population, 125
- number of physicians per 100,000 population, 124
- per-capita state and local government expenditures, 94

High-school graduates:
- increase in number of, 49
- as percent of ninth-graders, 48

Higher education:
- per-capita state and local government expenditures for, 105
- per-capita state expenditures for, 104

Highways:
- per-capita state and local government expenditures, 97

Local governments:
- per-capita property tax revenue, 73

per-capita tax revenue, 78
percent of school revenue from, 84, 85
property tax revenue as percent of state-local property tax revenue, 75

Personal income:
buying income per household, 62
expenditures for local schools as percent of, 111
general revenue of state and local governments as percent of, 69
per capita, 53
per capita, increase in, 55
per capita as percent of national average, 54
per-capita disposable, 58
per-capita disposable, percent increase in, 60
per-capita disposable as percent of, 59
per child in average daily membership, 57
per child of school age, 56
percent from government employment, 61
percent of households with cash incomes under $3,000, 63
percent of households with cash incomes under $5,000, 64
percent of households with cash incomes of $10,000 or more, 65
public-school revenue as percent of, 82
state and local property tax revenue as percent of, 76
state and local school revenue as percent of, 83
state and local tax collections as percent of, 71
state tax revenue as percent of, 79
state and local government expenditures for education as percent of, 103
total, 52
Physicians:
number per 100,000 population, 124
Police protection:
per-capita state and local government expenditure, 95
Population:
adult (age 21-64), 6
age 65 and older, percent increase in, 9
age 65 and older, as percent of resident, 8
density of, 11
median school years completed, 46
migration rate, 3
percent illiterate, 47
resident, 1
resident, change in, 2
school-age, 4
school-age, percent enrolled in public schools, 16
school-age, percent in average daily membership, 24
school-age, percent of resident, 5
school-age per 100 adults, 7
school age, personal income per child, 56
urban, percent, 12
Pupil-teacher ratio, 31

Retail sales, per capita, 119

Salaries:
of all teachers, 37, 38
of elementary-school teachers, 33, 34
of instructional staff, 40, 42
of instructional staff, percent increase in, 44, 45
of instructional staff as percent of national average, 41, 43
percent of teachers paid $8,500 or more, 39
of secondary-school teachers, 35, 36
School districts:
operating units, 13
total administrative units, 13
School expenditures:
expenditures as percent of personal income, 111
per-capita state and local expenditures for local schools, 106
per-capita state and local government expenditures for education, 101
per-capita state expenditures for education, 100
per pupil in average daily attendance, 107, 109
per pupil in average daily attendance, increase in, 112
per pupil in average daily attendance as percent of national average, 108, 110
per pupil in average daily membership, 113, 114
state and local government expenditures for education as percent of all expenditures, 102
state and local government expenditures for education as percent of personal income, 103
state expenditure for welfare and correction as percent of, 118
School lunch program:
percent of enrollment participating, 26
School term:
length in days, 25
School revenue:
local revenue as percent of state and local, 90
percent from federal government, 88, 89
percent from local governments, 84, 85
percent from state governments, 86, 87
as percent of personal income, 82

BEST COPY AVAILABLE

percent from local governments, 84, 85
percent from state governments, 86, 87
as percent of personal income, 82
per pupil in average daily attendance, 80, 81
state and local revenue as percent of personal income, 83
Selective Service draftees:
percent failing mental tests, 50, 51
Staff, instructional:
average salaries, 40, 42
average salaries, increase in, 44, 45
average salaries as percent of national average, 41, 43
in higher education institutions, 29
in public schools, 27
Staff, noninstructional:
in higher education institutions, 30
in public schools, 28
State and local governments combined:
expenditures for education as percent of all expenditures, 102
expenditures for education as percent of personal income, 103
general revenue from own sources as percent of personal income, 69
local property tax revenue as percent of total property tax revenue, 75
per-capita expenditures for education, 101
per-capita expenditures for fire protection, 96
per-capita expenditures for higher education, 105

## FOREWORD

The 128 ranked lists of state data that constitue this Report present information that may be used in understanding, explaining, interpreting, and possibly evaluating various aspects of state school systems. The range of items, however, illustrates the difficulty of making a defensible single judgment of the effort or the effectiveness of a given state in working on its educational problems. *These rankings are not suitable for combining into composite rankings for the 50 state school systems.*

It is hoped that the information presented in this Report will be useful in the improvement of education.

GLEN ROBINSON
Director, Research Division

## INTRODUCTION

The figures used in the rankings presented in this Report are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1969-70 estimates for certain items are given along with 1970-71 estimates.

The national totals shown in most tables include the District of Columbia; but because the District comprises a single urban school system, and hence is not comparable to state school systems, figures for it are not shown separately. Data for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands, whenever they are available, are given in a separate listing beginning on page 71.

All dollar amounts for Alaska should be reduced by 30 percent to make the purchasing power of Alaska figures generally comparable to figures reported for other areas of the United States. This is noted in the tables where this applies.

When the figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

Appended to each table are the source or sources of the data and appropriate definitions when necessary.

## POPULATION

1–Estimates of Total Population, April 1, 1970 . . . . . 7

2–Percent Change in Total Population, April 1, 1960, to April 1, 1970 . . . . . 7

3–Net Total Migration Rate, 1965 to 1968 . . . . . 7

4–Estimated School-Age Population, July 1, 1970 . . . . . 8

5–Estimated School-Age Population as Percent of Total Resident Population, 1970 . . . . . 8

6–Percent of Total Resident Population Aged 21-64 in 1969 . . . . . 8

7–Number of School-Age Children per 100 Adults Aged 21-64 in 1969 . . . . . 9

8–Percent of Resident Population Aged 65 and Older, July 1, 1969 . . . . . 9

9–Percent Increase in Population 65 Years of Age and Older, 1960 to 1969 . . . 10

10–Birth Rates, 1969 (Preliminary) . . . . . 10

11–Estimated Number of Infant Deaths Under One Year per 1,000 Live Births, 1969 . . . . . 10

12–Population per Square Mile, 1970 . . . . . 11

13–Percent of Population That Is Urban, December 31, 1969 . . . . . 11

## 1–ESTIMATES OF TOTAL POPULATION, APRIL 1, 1970

| 49. | Kentucky | 173.6 |
| 50. | Vermont | 171.8 |

Source: U.S. Department of Health, Education, and Welfare, Office of Education. *Preliminary Statistics of State School Systems, 1967-68*. Washington, D.C.: Government Printing Office, June 1970, p. 11.

*Table 26*

Average length of school term: computed by dividing the aggregate days of attendance by the average number of days schools were in session and pupils were in attendance during the year; some states reported the state mandated minimum number of days rather than the computed average number of days the schools were open.

*Table 27*

Enrollment participating: represents average number of children participating in December 1968. The number of children may have been higher in some states during other months but December was the peak month in terms of children participating nationally.

Indemnity plan: a subsidy program to expand markets for agricultural products, maintain outlets for government-owned commodities, and support school-lunch programs. Sponsors of school-lunch programs are reimbursed by the federal government for local purchases of food on a basis of quality and quantity of meals served.

## 27–PERCENT OF ELEMENTARY AND SECONDARY SCHOOL (PUBLIC AND PRIVATE) ENROLLMENT PARTICIPATING IN FEDERALLY SUBSIDIZED SCHOOL LUNCH PROGRAM (INDEMNITY PLAN), 1969

*Table 28*

Instructional staff: number of positions, not the number of different individuals occupying the positions during the school year. Includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior college staff.

*Table 29*

Non-instructional staff: administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems.

*Table 52*

Personal income: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

U.S. Department of Commerce, Regional Economics Division. "State and Regional Personal Income in 1969." *Survey of Current Business* 50: 33-44: August 1970.

Personal income: state personal income is the current income received by residents of the state from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

School-age population: population aged 5 through 17, inclusive.

*Table 56*

*Table 63*

Household: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

Net effective buying income: same as disposable personal income; is obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

*Table 68*

Revenue from own sources: all revenue of a government (taxes and other) except intergovernmental revenue.

Personal income: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

*Table 69*

Taxes: compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government; however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

*Table 71*

Property taxes: taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates), and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

## 71–PER-CAPITA PROPERTY TAX REVENUE OF STATE AND LOCAL GOVERNMENTS, 1968-69

*Table 86*

Revenue: revenue receipts for public-school purposes from *local*, intermediate, and other sources include all funds for direct expenditure by local and intermediate districts: for school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts, and tuition and fees received from patrons.

*Table 87*

Revenue: revenue receipts from *state sources* include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and/or social security on behalf of public-school employees, for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the costs of textbooks, buses, supplies, etc. purchased by the state for distribution to local school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included.

Revenue: revenue receipts from *federal sources* include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.)

*Table 92*

Expenditure: all amounts of money paid out by a government–net of recoveries and other correcting transactions–other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisities or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

General expenditure: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

Functions: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

*The figure for Alaska should be reduced about 30 percent to make the purchasing power comparable with that of other areas of the United States.

Source: U.S. Department of Commerce, Bureau of the Census. *Governmental Finances in 1968-69*. Series GF69 No. 5. Washington, D.C.: Government Printing Office. September 1969. p. 47.

*Table 94*

Public welfare: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include: *Cash Assistance Payments* directly to needy persons under categorical and other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs; welfare institutions; and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its *Hospital* and *Health* agencies are classed under those headings.

*Table 95*

Health: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

Hospitals: establishment and operation of hospital facilities, provision of hospital care, and support of other public or of private hospitals.

Debt: the major portion of all state and local government debt is long-term indebtedness. A substantial portion of such long-term debt is nonguaranteed debt, i.e., obligations payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes.

Education: Provision or support of schools and other educational facilities and services.

Expenditures: all amounts of money paid out by a government–net of recoveries and other correcting transactions–other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

U.S. Department of Commerce, Regional Economics Division. "State and Regional Personal Income in 1969." *Survey of Current Business* 50:33-44; August 1970.

*Table 104*

Education: provision or support of schools and other educational facilities and services.

Expenditures: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

Personal income: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before tax measure. The total includes nonmonetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

*Table 106*

Higher education includes facilities and activities of all educational institutions beyond the high school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis.

*Table 108*

Average daily attendance: average of pupils attending when schools are actually in session.

Current expenditures: all amounts spent at all levels of administration–state, intermediate, and basic local–for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the intermediate (county) departments of education; employers' (state, intermediate, and local) contributions to retirement systems and/or social security on behalf of public school employees; and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

Source: U.S. Department of Commerce, Bureau of the Census, *State Government Finances in 1969*, Series GF69 No. 3, Washington, D.C.: Government Printing Office, June 1970, p. 28, 31, 33.

Correction: Confinement and correction of adults and minors convicted of offenses against the law, and pardon, probation, and parole activities.

Correctional institutions: State prisons, reformatories, houses of correction, and other State institutions for the confinement and correction of convicted persons and juveniles. Includes only state-operated facilities; excludes cost of maintaining prisoners in institutions of other governments.

Public welfare: Support of and assistance to needy persons contingent upon their need, including intergovernmental expenditure to help finance public welfare programs administered by local governments. Direct expenditure under this heading includes cash assistance paid by the state to needy persons under the categorical programs (Old Age Assistance, Aid to Families with Dependent Children, Aid to the Blind, and Aid to the Disabled) and under any other state-administered welfare program; segregable payments directly to private vendors for medical care, burials, and other commodities and services provided under welfare programs for the needy (including all direct vendor payments under medical assistance programs); and expenditure for state administration of public welfare programs, including the provision and operation of welfare institutions. Health and hospital services provided directly by the state, and payments to local governments for such purposes, are reported under other functional headings rather than here. Benefits not contingent upon need, such as bonuses and other aids to veterans as a class, also fall outside the public welfare classification.

## INDEX

*Numbers refer to the tables.*

Administrative units:
  number of, 14
Average daily attendance:
  expenditures per pupil, 108, 110
  expenditures per pupil, increase in, 113
  expenditures per pupil as percent of national average, 109, 111
  expenditures per pupil as percent of personal income, 112
  number, 20
  percent of enrollment, 21
  percent in average daily membership, 23
  personal income per child, 56
  school revenue per pupil, 81, 82
Average daily membership:
  expenditures per pupil, 114, 115
  number, 22
  percent in average daily attendance, 23
  percent of enrollment, 24
  percent of school-age population, 25
  personal income per child, 56

Birth rate, 10

Crimes:
  increase in, 128
  number of, 127

Deaths:
  infant rate, 11
Dentists:
  number of, 126
Debt:
  of state and local governments, 100
  of state governments, 99
Disposable personal income:
  *See* Personal income, disposable

Educational attainment:
  high-school graduates as percent of ninth-graders, 49
  median school years completed by adults, 47
  percent of illiteracy, 48
Employment:
  government employees as percent of nonagricultural employees, 124
  number of federal civilian employees, 122
  number of government employees, 123

Enrollment:
  cumulative, 17
  fall, 15
  percent change in, 18
  percent in average daily attendance, 21
  percent in average daily membership, 24
  percent in school lunch program, 27
  percent of school-age population, 16
  percent public, 19
Expenditures:
  education, as percent of personal income, 104
  education, as percent of total expenditures, 103
  education, per capita, 101, 102
  fire protection, per capita, 97
  general, per capita, 92
  general, state-local per capita, 93
  health and hospitals, per capita, 95
  highways, per capita, 98
  per pupil in federally aided vocational programs, 116
  police protection, per capita, 96
  pupil transportation, 118
  pupil transportation as percent of current school expenditures 117
  school, as percent of personal income, 112
  school, per pupil in average daily attendance, 108, 110
  school, per pupil in average daily membership, 114, 115
  welfare, per capita, 94

Farm income:
  cash receipts, 61
Federal government:
  expenditure per pupil in vocational programs, 116
  number of civilian employees, 122
  percent of enrollment in school lunch program, 27
  percent of land owned by, 121
  percent of school revenue from, 89, 90
Fire protection:
  expenditures per capita, 97

Governments (national, state, and local)
  employees as percent of employees in nonagricultural establishments, 124
  number of employees, 123

Health and hospitals:
  birth rate, 10

death rate of infants, 11
expenditures per capita, 95
number of dentists, 126
number of physicians, 125
High-school graduates:
increase in number, 50
percent of ninth-graders, 49
Higher education:
instructional staff, 30
noninstructional staff, 31
state and local expenditures for, per capita, 105
state expenditures for, per capita, 105
Highways:
expenditures for, per capita, 98
Households:
buying income, 62
percent with incomes of $10,000 or more, 65
percent with incomes under $5,000, 64
percent with incomes under $3,000, 63

Illiteracy, 48
Income:

## FOREWORD

The 132 ranked lists of state data that constitute this Report present information that may be used in understanding, explaining, interpreting, and possibly evaluating various aspects of state school systems. The range of items, however, illustrates the difficulty of making a defensible single judgment of the effort or the effectiveness of a given state in working on its educational problems. *These rankings are not suitable for combining into composite rankings for the 50 state school systems.*

It is hoped that the information presented in this report will be useful in the improvement of education.

GLEN ROBINSON
Director, Research Division

## INTRODUCTION

The figures used in the rankings presented in this Report are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1970-71 estimates for certain items are given along with 1971-72 estimates.

The national totals shown in most tables include the District of Columbia; but because the District comprises a single urban school system, and hence is not comparable to state school systems, figures for it are not shown separately. Data for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands, whenever they are available, are given in a separate listing beginning on page 72.

Each section of this report consists of a list of definitions appropriate to the tables, a list of sources (complete citations), and the tables. Appended to each table are the sources in abbreviated form and references to the pertinent definitions.

When figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

Dollar amounts for Alaska should be reduced by 30 percent to make the purchasing power of Alaska figures generally comparable to figures reported for other areas of the United States. This is noted in the tables where it applies.

It should be noted that Tables 66, 67, 68, 69, and 123 consist of data from the Sales Management Survey of Buying Power, a copyrighted work. Anyone wishing to reproduce these tables must get permission direct from Sales Management, 630 Third Avenue, New York, New York 10017.

## POPULATION

1–Total Population, April 1, 1970 ..... 8

2–Provisional Estimates of Total Resident Population, July 1, 1971 ..... 8

3–Percent Change in Total Population, 1960 to 1970 ..... 8

4–Net Total Migration Rate, 1965 to 1968 ..... 9

5–Percent of Population That Is Black, 1970 ..... 9

6–Estimated School-Age Population, July 1, 1971 ..... 9

7–Estimated School-Age Population as Percent of Total Population, 1971 ..... 10

8–Percent of Total Population Aged 21-64 in 1970 ..... 10

9–Number of School-Age Children per 100 Adults Aged 21-64 in 1970 ..... 10

10–Percent of Population Aged 65 or Older, April 1, 1970 ..... 11

11–Percent Increase in Population 65 Years of Age and Older, 1960 to 1970 ..... 11

12–Birth Rates, 1970 (Provisional) ..... 11

13–Estimated Number of Infant Deaths Under One Year per 1,000 Live Births, 1970 ..... 12

14–Population per Square Mile, 1971 ..... 12

15–Percent of Population That is Urban, 1970 ..... 12

### Definitions

BIRTH RATE: number of live births per 1,000 population (excluding armed forces abroad) estimated as of July 1, 1970.

LAND: dry land and land temporarily or partially covered by water, as marshland, swamps, etc.; streams and canals under one-eight statute mile wide; and lakes reservoirs, and ponds under 40 acres of area.

NET TOTAL MIGRATION RATE: number of migrant persons per 100 midpoint population.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

RESIDENT POPULATION: includes persons in the armed forces stationed in each area.

URBAN POPULATION: persons living in (a) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin); (b) the densely settled urban fringe, whether incorporated or unincorporated, of urbanized areas; (c) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 or more per square mile; (d) counties in states other than the New England states, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile; and (e) unincorporated places of 2,500 inhabitants or more.

## ENROLLMENT AND ATTENDANCE

16–Number of Basic Administrative Units (Operating School Districts), 1971-72 . . . . . 15

17–Public-School Enrollment, Fall 1971 . . . . . 15

18–Fall 1971 Enrollment in Public Schools as Percent of School-Age Population, July 1, 1971 . . . . . 15

19–Estimated Public Elementary- and Secondary-School Enrollment, 1971-72 . . . . . 16

20–Percent of Change in Public Elementary- and Secondary-School Enrollment, 1961-62 to 1971-72 . . . . . 16

21–Estimated Public-School Enrollment as Percent of Total School Enrollment, Fall 1970 . . . . . 16

22–Estimated Average Daily Attendance in Public Schools, 1971-72 . . . . . 17

23–Average Daily Attendance as Percent of Cumulative Enrollment, 1971-72 . . . . . 17

24–Average Daily Membership in Public Schools, 1971-72 . . . . . 17

25–Average Daily Attendance as Percent of Average Daily Membership, 1971-72 . . . . . 18

26–Average Daily Membership as Percent of Cumulative Enrollment, 1971-72 . . . . . 18

27–Average Daily Membership as Percent of School-Age Population, 1971-72 . . . . . 18

28–Average Length of Public-School Term in Days, 1967-68 . . . . . 19

29–Percent of Elementary- and Secondary-School (Public and Private) Enrollment Participating in Federally Subsidized School Lunch Program (Indemnity Plan), 1970 . . . . . 19

### Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

AVERAGE LENGTH OF SCHOOL TERM: computed by dividing the aggregate days of attendance by the average number of days schools were in session and pupils were in attendance during the year; some states reported the state mandated minimum number of days rather than the computed average number of days the schools were open.

BASIC ADMINISTRATIVE UNIT: the local school district, the unit for the operation of elementary and secondary schools or for contracting for school services.

CUMULATIVE ENROLLMENT: a cumulative count of the number of different pupils registered during the entire school year; new entrants are added, but those leaving are not subtracted.

ENROLLMENT: *see* culumative enrollment.

ENROLLMENT PARTICIPATING IN SCHOOL LUNCH PROGRAM: represents average number of children participating in December 1970. The number of children may have been higher in some states during other months but December was the peak month in terms of children participating nationally.

FALL ENROLLMENT: the count of the pupils registered in the fall of the school year, usually October; junior colleges are omitted.

INDEMNITY PLAN: a subsidy program to expand markets for agricultural products, maintain outlets for government-owned com-

modities, and support school-lunch programs. Sponsors of school-lunch programs are reimbursed by the federal government for local purchases of food on a basis of quality and quantity of meals served.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

## TEACHERS

30–Total Instructional Staff (Full-Time Equivalent) in Local Public Schools, October 1970 . . . . . 22

31–Total Non-Instructional Staff (Full-Time Equivalent) in Local Public Schools, October 1970 . . . . . 22

32–Total Instructional Staff (Full-Time Equivalent) in Public Institutions of Higher Education, October 1970 . . . . . 22

33–Total Non-Instructional Staff (Full-TIme Equivalent) in Public Institutions of Higher Education, October 1970 . . . . . 23

34–Pupils per Teacher in Public Elementary and Secondary Schools, Fall 1970 . . . . . 23

35–Percent of Public Elementary- and Secondary-School Teachers Who Are Men, 1971-72 . . . . . 23

36–Estimated Average Salaries of Elementary-School Teachers, 1970-71 (Revised) . . . . . 24

37–Estimated Average Salaries of Elementary-School Teachers, 1971-72 . . . . . 24

38–Estimated Average Salaries of Secondary-School Teachers, 1970-71 (Revised) . . . . . 24

39–Estimated Average Salaries of Secondary-School Teachers, 1971-72 . . . . . 25

40–Estimated Average Salaries of All Teachers in Public Schools, 1970-71 (Revised) . . . . . 25

41–Estimated Average Salaries of All Teachers in Public Schools, 1971-72 . . . . . 25

42–Percent of Public-School Teachers Paid $9,500 or More, 1971-72 . . . . . 26

43–Estimated Average Salaries of Instructional Staff in Public Schools, 1970-71 (Revised) . . . . . 26

44–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1970-71 (Revised) . . . . . 26

45–Estimated Average Salaries of Instructional Staff in Public Schools, 1971-72 . . . . . 27

46–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1971-72 . . . . . 27

47–Percent Increase in Instructional Staff Salaries, 1961-62 to 1971-72 . . . . . 27

48–Percent Increase in Instructional Staff Salaries, 1970-71 to 1971-72 . . . . . 28

## Definitions

INSTRUCTIONAL STAFF: Number of positions, not the number of different individuals occupying the positions during the school year. In local schools includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior college staff. In institutions of higher education includes those engaged in teaching and related academic research in colleges and universities, including those in hospitals, agricultural experiment stations, and farms.

NON-INSTRUCTIONAL STAFF: In local schools includes administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems. In institutions of higher education includes cafteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

## GENERAL FINANCIAL RESOURCES

53–Total Personal Income, 1970 (in Millions) . . . . . 34

54–Percent Change in Total Personal Income, 1969 to 1970 . . . . . 34

55–Per-Capita Personal Income, 1970 . . . . . 34

56–Per-Capita Personal Income as Percent of National Average, 1970 . . . . . 35

57–Percent Increase in Per-Capita Personal Income, 1969 to 1970 . . . . . 35

58–Percent Increase in Per-Capita Personal Income, 1960 to 1970 . . . . . 35

59–Personal Income per Child of School Age, 1970 . . . . . 36

60–Personal Income per Pupil in Average Daily Attendance, 1970 . . . . . 36

61–Per-Capita Disposable Personal Income, 1968 . . . . . 36

62–Per-Capita Disposable Personal Income as Percent of Per-Capita Personal Income, 1968 . . . . 37

63–Percent Increase in Per-Capita Disposable Personal Income, 1965 to 1968 . . . . . 37

64–Personal Income from Government (Federal, State, and Local) Employment as Percent of Total Personal Income, 1970 . . . . . 37

65–Farm Income (Gross), Total Cash Receipts, 1970 (in Millions) . . . . . 38

66–Net Effective Buying Income per Household, 1970 . . . . . 38

67–Percent of Households with Cash Incomes Under $3,000 in 1970 . . . . . 38

68–Percent of Households with Cash Incomes Under $5,000 in 1970 . . . . . 39

69–Percent of Households with Cash Incomes of $10,000 or More in 1970 . . . . . 39

### Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

DISPOSABLE PERSONAL INCOME: Estimates of disposable personal income are obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

HOUSEHOLD: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

NET EFFECTIVE BUYING INCOME: same as disposable personal income; is obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pensions, health, and welfare funds.

SCHOOL-AGE POPULATION: population aged 5 through 17, inclusive.

81–Per-Capita Local Tax Collections, 1969-70 . . . . . 45

82–State Tax Revenue in Fiscal 1970 as Percent of Personal Income in 1969 . . . . . 46

### Definitions

GENERAL REVENUE: all revenue of a government except the kinds of revenue classified as utility revenue, liquor stores revenue, and insurance trust revenue. All tax collections, even if designated for insurance trust or local utility purposes, are classified under general revenue.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a beofore-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PROPERTY TAXES: taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates), and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

REVENUE FROM OWN SOURCES: all revenue of a government (taxes and other) except intergovernmental.

TAXES: compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government; however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

## SCHOOL REVENUE

83–Public-School Revenue Receipts per Pupil in Average Daily Attendance, 1970-71 (Revised) . . . . . 49

84–Public-School Revenue Receipts per Pupil in Average Daily Attendance, 1971-72 . . . . . 49

85–Public-School Revenue Receipts, 1970-71, as Percent of Personal Income, 1970 . . . . . 49

86–Local and State Revenue Receipts for Public Schools in 1970-71 as Percent of Personal Income, 1970 . . . . . 50

87–Estimated Percent of Revenue for Public Elementary and Secondary Schools from Local Governments, 1970-71 (Revised) . . . . . 50

88–Estimated Percent of Revenue for Public Elementary and Secondary Schools from Local Governments, 1971-72 . . . . . 50

89–Estimated Percent of Revenue for Public Elementary and Secondary Schools from State Governments, 1970-71 (Revised) . . . . . 51

90–Estimated Percent of Revenue for Public Elementary and Secondary Schools from State Governments, 1971-72 . . . . . 51

91–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1970-71 (Revised) . . . . . 51

92–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1971-72 . . . . . 52

93–Local Public-School Revenue as Percent of State and Local School Revenue, 1971-72 . . . . . 52

### Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds and private pension, health, and welfare funds.

REVENUE: revenue receipts for public-school purposes from LOCAL, intermediate and other sources include all funds for direct expenditure by local and intermediate districts: for school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and/or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts, and tuition and fees received from patrons.

Revenue receipts from STATE sources include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and/or social security on behalf of public-school employees for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the costs of textbooks, buses, supplies, etc. purchased by the state for distribution to local

school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included.

Revenue receipts from FEDERAL sources include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.)

REVENUE RECEIPTS: includes all revenue receipts available for expenditures for current expenses, capital outlay, and debt service for public schools, including all appropriations from general funds of federal, state, county, and local governments, receipts from taxes levied for school purposes, income from permanent school funds and endowments, income from leases of school lands, interest on bank deposits, tuition, gifts, etc. Amounts which increase the school indebtedness or which represent exchanges of school property for money are excluded.

# GOVERNMENTAL EXPENDITURES AND DEBT

94–Per-Capita Total General Expenditures of the States for all Functions, 1970 . . . . . 55

95–Per-Capita Total General Expenditures of State and Local Governments, 1969-70 . . . . . 55

96–Per-Capita Expenditure of State and Local Governments for Public Welfare, 1969-70 . . . . . 55

97–Per-Capita Expenditure of State and Local Governments for Health and Hospitals, 1969-70 . . . . . 56

98–Per-Capita Expenditure of State and Local Governments for Police Protection, 1969-70 . . . . . 56

99–Per-Capita Expenditure of State and Local Governments for Fire Protection, 1969-70 . . . . . 56

100–Per-Capita Expenditure of State and Local Governments for Highways, 1969-70 . . . . . 57

101–Per-Capita Net Long-Term Debt (Full Faith and Credit Only) of State Governments at End of Fiscal Year, 1970 . . . . . 57

102–Per-Capita Long-Term Debt of State and Local Governments Outstanding at End of Fiscal Year, 1969-70 . . . . . 57

## Definitions

DEBT: the major portion of all state and local government debt is long-term indebtedness. A substantial portion of such long-term debt is nonguaranteed debt, i.e., obligations payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes.

EXPENDITURE: all amounts of money paid out by a government–net of recoveries and other correcting transactions–other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FIRE PROTECTION: comprises fire fighting and fire protection activities of local governments. Federal and state expenditures for forest fire fighting and prevention are classified under "natural resources."

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

GENERAL EXPENDITURE: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

HEALTH: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

HIGHWAYS: streets, highways, and structures necessary for their use, street lighting, snow and ice removal, toll highway and bridge facilities, and ferries.

HOSPITALS: establishment and operation of hospital facilities, provision of hospital care, and support of other public or private hospitals.

NET LONG-TERM DEBT: total long-term debt outstanding minus offsets to long-term debt, which comprise financial assets of sinking funds and other reserve funds, however designated, which are specifically held for retirement of long-term debt. Full faith and credit includes all long-term credit obligations of the government and its agencies backed by full faith and credit (implying the power of taxation).

POLICE PROTECTION: preservation of law and order and traffic safety. Includes highway police patrols, crime prevention activities, police communications, detention and custody of persons awaiting trial, traffic safety, vehicular inspection and the like.

PUBLIC WELFARE: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include cash assistance payments directly to needy persons under categorical and other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs; welfare institutions; and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its hospital and health agencies are classed under those headings.

## SCHOOL EXPENDITURES

103–Per-Capita State Expenditures for All Education, 1970 . . . . . 60

104–Per-Capita Total Expenditures of State and Local Governments for All Education, 1969-70 . . . . . 60

105–State and Local Total Government Expenditures for All Education as Percent of Direct Expenditures for All Functions, 1969-70 . . . . . 60

106–State and Local Government Expenditures for All Education in 1969-70 as Percent of Personal Income in 1970 . . . . . 61

107–State Expenditures for State Institutions of Higher Education per Capita of Population, 1970 . . . . . 61

108–Per-Capita State and Local Government Expenditures for Higher Education, 1969-70 . . . . . 61

109–Per-Capita State and Local Expenditures for Local Schools (Including Capital Outlay), 1969-70 . . . . . 62

110–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1970-71 (Revised) . . . . . 62

111–Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance as Percent of National Average, 1970-71 (Revised) . . . . . 62

112–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1971-72 . . . . . 63

113–Current Expenditures per Public-School Pupil in Average Daily Attendance as Percent of National Average, 1971-72 . . . . . 63

114–Total Current Expenditures for Public Elementary and Secondary Schools in 1970-71 as Percent of Personal Income in 1970 . . . . . 63

115–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Attendance, 1961-62 to 1971-72 . . . . . 64

116–Current Expenditures per Pupil in Average Daily Membership, 1970-71 (Revised) . . . . . 64

117–Current Expenditures per Pupil in Average Daily Membership 1971-72 . . . . . 64

118–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Membership, 1961-62 to 1971-72 . . . . . 65

119–Average Expenditure per Student Enrolled in Vocational Programs, 1969 . . . . . 65

120–Pupil Transportation Expenditure as Percent of Current Expenditures for Public Elementary and Secondary Schools, 1969-70 . . . . . 65

121–Average Cost of Transportation per Pupil Transported, 1969-70 . . . . . 66

122–State Direct Expenditures for Public Welfare and Correction as Percent of State Direct Expenditures for All Education, 1970 . . . . . 66

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

CORRECTION: confinement and correction of adults and minors convicted of offenses against the law, and pardon, probation, and parole activities.

CORRECTIONAL INSTITUTIONS: state prisons, reformatories, houses of correction, and other State institutions for the confinement and correction of convicted persons and juveniles. Includes only state-operated facilities; excludes cost of maintaining prisoners in institutions of other governments.

CURRENT EXPENDITURES: all amounts spent at all levels of administration—state, intermediate, and basic local—for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the intermediate (county) departments of education; employers' (state, intermediate, and local) contributions to retirement systems and/or social security on behalf of public-school employees; and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

EDUCATION: provision or support of schools and other educational facilities and services.

EXPENDITURES: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

HIGHER EDUCATION: includes facilities and activities of all educational institutions beyond the high-school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PUBLIC WELFARE: support of and assistance to needy persons contingent upon their need, including intergovernmental expenditure to help finance public welfare programs administered by local governments. Direct expenditure under this heading includes cash assistance paid by the state to needy persons under the categorical programs (Old Age Assistance, Aid to Families with Dependent Children, Aid to the Blind, and Aid to the Disabled) and under any other state-administered welfare program; segregable payments directly to private vendors for medical care, burials, and other commodities and services provided under welfare programs for the needy (including all direct vendor payments under medical assistance programs); and expenditure for state administration of public welfare programs, including the provision and operation of welfare institutions. Health and hospital services provided directly by the state, and payments to local governments for such purposes, are reported under other functional headings rather than here. Benefits not contingent upon need, such as houses and other aids to veterans as a class, also fall outside the public welfare classification.

## INDEX

*Numbers refer to the tables.*

Administrative units:
  number of, 16
Average daily attendance:
  expenditures per pupil, 110, 112
  expenditures per pupil, increase in, 115
  expenditures per pupil as percent of national average, 111, 113
  expenditures per pupil as percent of personal income, 114
  number , 22
  percent of enrollment, 23
  percent of average daily membership, 25
  personal income per child, 60
  school revenue per pupil, 83, 84
Average daily membership:
  expenditures per pupil, 116, 117
  expenditures per pupil, increase in, 118
  number, 24
  percent in average daily attendance, 25
  percent of enrollment, 26
  percent of school-age population, 27
  personal income per child, 60

Birth rate, 12
Buying income:
  households, 66, 67, 68

Crimes:
  increase in, 131
  number of, 130

Deaths:
  infant rate, 13
Dentists:
  number of, 129
Debt:
  of state and local governments, 102
  of state governments, 101
Disposable personal income:
  *See* Personal income, disposable

Educational attainment:
  high-school graduates as percent of ninth-graders, 51
  median school years completed by adults, 49
  percent of illiteracy, 50
Employment:
  government employees as percent of nonagricultural employees, 127
  number of federal civilian employees, 125
  number of government employees, 126

Enrollment:
  cumulative, 19
  fall, 17
  percent change in, 20
  percent in average daily attendance, 23
  percent in average daily membership, 26
  percent in school lunch program, 29
  percent of school-age population, 18
  percent public, 21
Expenditures:
  education, as percent of personal income, 106
  education, as percent of total expenditures, 105
  education, per capita, 103
  fire protection, per capita, 99
  general, per capita, 94
  general, state-local per capita, 95
  health and hospitals, per capita, 97
  highways, per capita, 100
  per pupil in federally aided vocational programs, 119
  police protection, per capita, 98
  pupil transportation, 121
  pupil transportation as percent of current school expenditures, 120
  school, as percent of personal income, 114
  school, per pupil in average daily attendance, 110, 112
  school, per pupil in average daily membership, 116, 117
  welfare, per capita, 96

Farm income:
  cash receipts, 65
Federal government:
  expenditure per pupil in vocational programs, 119
  number of civilian employees, 125
  percent of enrollment in school lunch program, 29
  percent of land owned by, 124
  percent of school revenue from, 91, 92
Fire protection:
  expenditures per capita, 99

Governments (national, state, and local):
  employees as percent of employees in nonagricultural establishments, 127
  number of employees, 126

Health and hospitals:
  birth rate, 12
  death rate of infants, 13
  expenditures per capita, 97

number of dentists, 129
number of physicians, 128
High-school graduates:
increase in number, 52
percent of ninth-graders, 51
Higher education:
instructional staff, 32
noninstructional staff, 33
state and local expenditures for, per capita, 108
state expenditures for, per capita, 107
Highways:
expenditures for, per capita, 100
Households:
buying income, 66
percent with incomes of $10,000 or more, 69
percent with incomes under $5,000, 68
percent with incomes under $3,000, 67

Illiteracy, 50
Income:
*See* Farm income; Personal income
Instructional staff:
number in higher education, 32
number in public schools, 30
salaries, 43, 45
salaries, increase in, 47, 48
salaries, percent of national average, 44, 46

Local and state governments combined:
*See* State and local governments combined
Local governments:
percent of school revenue from, 87, 88
property tax revenue, local, as percent of state-local, 78
property tax revenue per capita, 76
school revenue, as percent of state-local, 93
tax revenue, per capita, 81
Lunch (school) program:
percent of enrollment participating, 29

Men teachers:
percent of all teachers, 35
Migration:
rate of, 4

Noninstructional staff:
number in higher education, 33
number in public schools, 31

Personal income:
buying income per household, 66
disposable, increase in, 63
disposable as percent of total personal, 62
disposable per capita, 61
government employment income as percent of total, 64
household incomes of $10,000 or more, 69
household incomes under $5,000, 68
household incomes under $3,000, 67
per capita, 55
per-capita increase, 57, 58
per capita, percent of national average, 56
per child of school age, 59
per child in average daily attendance, 60
percent from government employment, 64
school expenditures as percent of, 114
school revenue as percent of, 85
state and local expenditures for education as percent of, 106
state and local property tax revenue as percent of, 79
state and local school revenue as percent of, 86
state and local tax revenue as percent of, 74
state tax revenue as percent of, 82
tax revenue as percent of, 74
total, 53
total, percent change in, 54
Physicians:
number of, 128
Police protection:
expenditures for, per capita, 98
Population:
age 65 and older, as percent of total, 10
age 65 and older, percent increase, 11
age 21-64, 8
density, 14
median school years completed, 49
migration rate, 4
percent black, 5
percent illiterate, 50
percent voting, 132
school age, 6
school age, number per 100 age 21-64, 9
school age, percent of total, 7
total, 1, 2
total, change in, 3
urban, percent, 15
Public welfare:
expenditures per capita, 96
Pupil-teacher ratio, 34

Retail sales:
per capita, 123
Revenue:
school revenue as percent of personal income, 85
school revenue per pupil in average daily attendance, 83, 84
state and local government combined, 70, 71
of state and local governments from own sources, 72
*See also* School revenue; Tax revenue

Salaries:
elementary teachers, 36, 37
instructional staff, 43, 45
instructional staff, increase in, 47, 48

instructional staff, percent of national average, 44, 46
percent of teachers paid $9,500 or more, 42
secondary teachers, 38, 39
teachers, 40, 41

School-age population:
number, 6
number per 100 age 21-64, 9
percent enrolled in school, 18
percent in average daily membership, 27
percent of total population, 7
personal income per child, 59
School districts:
number of, 16
School expenditures:
per pupil in average daily attendance, 110, 112
per pupil in average daily attendance as percent of national average, 111, 113
per pupil in average daily attendance, increase in, 115
per pupil in average daily membership, 116, 117
per pupil in average daily membership, increase in, 118
per pupil in federally aided vocational programs, 119
as percent of personal income, 114
for pupil transportation, 121
for pupil transportation as percent of current school expenditures, 120
state, 103
state and local, 104, 109
state and local as percent of all expenditures, 105
state and local as percent of personal income, 106
state expenditure for welfare and correction as percent of, 122
School lunch program:
percent of enrollment participating, 29
School revenue:
local as percent of state-local, 93
per pupil in average daily attendance, 83, 84
percent from federal government, 91, 92
percent from local governments, 87, 88
percent from state governments, 89, 90
as percent of personal income, 85
state and local, as percent of personal income, 86
School term:
length of, 28
Staff, instructional:
number in higher education, 32
number in public schools, 30
salaries, 45
salaries, increase in, 47, 48
salaries, percent of national average, 44, 46
Staff, noninstructional:
number in higher education, 33
number in public schools, 31
State and local governments combined:
debt, 102
expenditures for education, 104
expenditures for education as percent of all expenditures, 105
expenditures for education as percent of personal income, 106
expenditures for schools, 109
expenditures for higher education, 108
fire protection expenditures per capita, 99
general expenditures, per capita, 95
general revenue per capita, 70, 71
health and hospital expenditures per capita, 97
highway expenditures per capita, 100
percent of revenue from own sources, 72
police protection expenditures per capita, 98
property tax revenue, 75
property tax revenue, percent local, 78
property tax revenue, percent of personal income, 79
property tax revenue, percent of total tax revenue, 77
school revenue, local as percent of state-local, 93
school revenue, percent of personal income, 86
tax revenue as percent of personal income, 74
total tax revenue per capita, 73
welfare expenditures per capita, 96
State governments:
debt, 101
expenditures for education, 103
expenditures for higher education, 107
general expenditures per capita, 94
percent of school revenue from, 89, 90
tax revenue per capita, 80
tax revenue as percent of personal income, 82
for welfare and correction as percent of expenditures for education, 122

Tax revenue:
local, 81
local property tax revenue as percent of state-local, 78
property tax revenue, 75, 76
property tax revenue as percent of personal income, 79
property tax revenue as percent of total tax revenue, 77
property tax revenue, local, 76
property tax revenue, local, as percent of state-local, 78
state, as percent of personal income, 82
state, 80
total state and local, as percent of personal income, 74
total state and local, 73
Teachers:
percent men, 35
percent paid $9,500 or more, 42
pupil-teacher ratio, 34
salaries, 40, 41
Teachers, elementary:
salaries, 36, 37
Teachers, secondary:
salaries, 38, 39
Term (school):
length of, 28

Transportation, pupil:
expenditures as percent of current school expenditures, 120
expenditures per pupil, 121

Vocational programs:
expenditures per pupil, 119

Welfare:
expenditures per capita, 96

## FOREWORD

The 129 ranked lists of state data that constitute this Report present information that may be used in understanding, explaining, interpreting, and possibly evaluating various aspects of state school systems. The range of items, however, illustrates the difficulty of making a defensible single judgment of the effort or the effectiveness of a given state in working on its educational problems. *These rankings are not suitable for combining into composite rankings for the 50 state school systems.*

It is hoped that the information presented in this report will be useful in the improvement of education.

GLEN ROBINSON
Director, Research

## INTRODUCTION

THE FIGURES used in the rankings presented in this Report are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1971-72 estimates for certain items are given along with 1972-73 estimates.

The national totals shown in most tables include the District of Columbia; but because the District comprises a single urban school system, and hence is not comparable to state school systems, figures for it are not shown separately. Whenever data for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands are available, they are given in a separate listing beginning on page 70.

Each section of this report consists of a list of definitions appropriate to the tables, a list of sources (complete citations), and the tables. Appended to each table are the sources in abbreviated form and references to pertinent definitions.

When figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

Dollar amounts for Alaska should be reduced by 30 percent to make the purchasing power of Alaska figures generally comparable to figures reported for other areas of the United States. This is noted in the tables where it applies.

It should be noted that Tables E-11, E-12, E-13, E-14, and J-1 consist of data from the Sales Management Survey of Buying Power, a copyrighted work. Anyone wishing to reproduce these tables must get permission direct from Sales Management, 630 Third Avenue, New York, New York 10017.

## A. POPULATION

1–Estimated Total Resident Population, July 1, 1971 ..... 8

2–Provisional Estimate of Total Resident Population, July 1, 1972 ..... 8

3–Percent Change in Total Population, 1970-1972 ..... 8

4–Percent of Population That Is Black, 1970 ..... 9

5–Estimated School-Age Population, July 1, 1972 ..... 9

6–Estimated School-Age Population as Percent of Total Population, 1972 ..... 9

7–Percent of Total Population Aged 21-64 in 1970 ..... 10

8–Number of School-Age Children per 100 Adults Aged 21-64 in 1970 ..... 10

9–Percent of Population Aged 65 or Older, April 1, 1970 ..... 10

10–Percent Increase in Population 65 Years of Age and Older, 1960 to 1970 ..... 11

11–Birth Rates, 1971 (Provisional) ..... 11

12–Estimated Number of Infant Deaths Under One Year per 1,000 Live Births, 1971 ..... 11

13–Population per Square Mile, 1971 ..... 12

14–Percent of Population That is Urban, 1971 ..... 12

## Definitions

BIRTH RATE: number of live births per 1,000 population (excluding armed forces abroad).

LAND: dry land and land temporarily or partially covered by water, as marshland, swamps, etc.; streams and canals under one-eight statute mile wide; and lakes reservoirs, ponds under 40 acres of area.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

RESIDENT POPULATION: includes persons in the armed forces stationed in each area.

URBAN POPULATION: persons living in (a) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin); (b) the densely settled urban fringe, whether incorporated or unincorporated, of urbanized areas; (c) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 or more per square mile; (d) counties in states other than the New England states, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile; and (e) unincorporated places of 2,500 inhabitants or more.

## B. ENROLLMENT AND ATTENDANCE

1 – Number of Basic Administrative Units (Operating School Districts), 1972-73 ..... 15

2 – Public School Enrollment, Fall 1972 ..... 15

3 – Fall 1973 Enrollment in Public Schools as Percent of School-Age Population, July 1, 1972 ..... 15

4 – Estimated Public Elementary- and Secondary-School Enrollment, 1972-73 ..... 16

5 – Percent of Change in Public Elementary- and Secondary-School Enrollment, 1962-63 to 1972-73 ..... 16

6 – Estimated Public-School Enrollment as Percent of Total School Enrollment, Fall 1971 ..... 16

7 – Estimated Average Daily Attendance in Public Schools, 1972-73 ..... 17

8 – Average Daily Attendance as Percent of Cumulative Enrollment, 1972-73 ..... 17

9 – Average Daily Membership in Public Schools, 1972-73 ..... 17

10 – Average Daily Attendance as Percent of Average Daily Membership, 1972-73 ..... 18

11 – Average Daily Membership as Percent of Cumulative Enrollment, 1972-73 ..... 18

12 – Average Daily Membership as Percent of School-Age Population, 1972-73 ..... 18

13 – Average Length of Public-School Term in Days, 1967-68 ..... 19

14 – Percent of Elementary- and Secondary-School (Public and Private) Enrollment Participating in Federally Subsidized School Lunch Program (Indemnity Plan), 1971 ..... 19

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

AVERAGE LENGTH OF SCHOOL TERM: computed by dividing the aggregate days of attendance by the average number of days schools were in session and pupils were in attendance during the year. some states reported the state mandated minimum number of days rather than the computed average number of days the schools were open.

BASIC ADMINISTRATIVE UNIT: the local school district, the unit for the operation of elementary and secondary schools or for contracting for school services.

CUMULATIVE ENROLLMENT: a cumulative count of the number of different pupils registered during the entire school year. new entrants are added, but those leaving are not subtracted.

ENROLLMENT: *see* cumulative enrollment.

ENROLLMENT PARTICIPATING IN SCHOOL LUNCH PROGRAM: represents average number of children participating in March 1971. The number of children may have been higher in some states during other months but March was the peak month in terms of children participating nationally.

FALL ENROLLMENT: the count of the pupils registered in the fall of the school year, usually October; junior colleges are omitted.

INDEMNITY PLAN: a subsidy program to expand markets for agricultural products, maintain outlets for government-owned commodities, and support school-lunch programs. Sponsors of school-lunch programs are reimbursed by the federal government for local purchases of food on a basis of quality and quantity of meals served.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

## Definitions

INSTRUCTIONAL STAFF: Number of positions, not the number of different individuals occupying the positions during the school year. In local schools includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior college staff. In institutions of higher education includes those engaged in teaching and related academic research in colleges and universities, including those in hospitals, agricultural experiment stations, and farms.

NON-INSTRUCTIONAL STAFF: In local schools includes administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems. In institutions of higher education includes cafeteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

12–Percent of Households with Cash Incomes Under $3,000 in 1971 ..... 37

13–Percent of Households with Cash Incomes Under $5,000 in 1971 ..... 38

14–Percent of Households with Cash Incomes over $10,000 in 1971 ..... 38

### Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

HOUSEHOLD: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

NET EFFECTIVE BUYING INCOME: same as disposable personal income; is obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pensions, health, and welfare funds.

SCHOOL-AGE POPULATION: population aged 5 through 17, inclusive.

12–Per-Capita Local Tax Collections, 1970-71 ..... 44

13–State Tax Revenue in 1970-71 as Percent of Personal Income in 1971 ..... 45

## Definitions

GENERAL REVENUE all revenue of a government except the kinds of revenue classified as utility revenue, liquor stores revenue, and insurance trust revenue. All tax collections, even if designated for insurance trust or local utility purposes, are classified under general revenue.

PERSONAL INCOME state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PROPERTY TAXES taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates), and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

REVENUE FROM OWN SOURCES all revenue of a government (taxes and other) except intergovernmental.

TAXES compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government; however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

10–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1972-73 ..... 51

11–Local Public-School Revenuse as Percent of State and Local School Revenue, 1972-73 ..... 51

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds and private pension, health, and welfare funds.

REVENUE: revenue receipts for public-school purposes from LOCAL, intermediate and other sources include all funds for direct expenditure by local and intermediate districts: for the school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts, and tuition and fees received from patrons.

Revenue receipts from STATE sources include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and or social security on behalf of public-school employees for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the costs of textbooks, buses, supplies, etc. purchased by the state for distribution to local school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included.

Revenue receipts from FEDERAL sources include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.)

REVENUE RECEIPTS: includes all revenue receipts available for expenditures for current expenses, capital outlay, and debt service for public schools, including all appropriations from general funds of federal, state, county, and local governments, receipts from taxes levied for school purposes, income from permanent school funds and endowments, income from leases of school lands, interest on bank deposits, tuition, gifts, etc. Amounts which increase the school indebtedness or which represent exchange of school property for money are excluded.

## H. GOVERNMENTAL EXPENDITURES AND DEBT

1–Per-Capita Total General Expenditures of the States for All Functions, 1971 ..... 54

2–Per-Capita Total General Expenditures of State and Local Governments, 1970-71 ..... 54

3–Per-Capita Expenditure of State and Local Governments for Public Welfare, 1970-71 ..... 54

4–Per-Capita Expenditure of State and Local Governments for Health and Hospitals, 1970-71 ..... 55

5–Per-Capita Expenditure of State and Local Governments for Police Protection, 1970-71 ..... 55

6–Per-Capita Expenditure of State and Local Governments for Fire Protection, 1970-71 ..... 55

7–Per-Capita Expenditure of State and Local Governments for Highways, 1970-71 ..... 56

8–Per-Capita New Long-Term Debt (Full Faith and Credit Only) of State Governments at End of Fiscal Year, 1971 ..... 56

9–Per-Capita New Long-Term Debt of State Governments at End of Fiscal Year, 1971 ..... 56

10–Per-Capita Long-Term Debt of State and Local Governments Outstanding at End of Fiscal Year, 1970-71 ..... 57

## Definitions

DEBT: the major portion of all state and local government debt is long-term indebtedness. A substantial portion of such long-term debt is nonguaranteed debt, i.e., obligations payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes.

EXPENDITURE: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FIRE PROTECTION: comprises fire fighting and fire protection activities of local governments. Federal and state expenditures for forest fire fighting and prevention are classified under "natural resources."

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

GENERAL EXPENDITURE: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

HEALTH: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

HIGHWAYS: streets, highways, and structures necessary for their use, street lighting, snow and ice removal, toll highway and bridge facilities, and ferries.

HOSPITALS: establishment and operation of hospital facilities, provision of hospital care, and support of other public or private hospitals.

NET LONG-TERM DEBT: total long-term debt outstanding minus offsets to long-term debt, which comprise financial assets of sinking funds and other reserve funds, however designated, which are specifically held for retirement of long-term debt. Full faith and credit includes all long-term credit obligations of the government and its agencies backed by full faith and credit (implying the power of taxation).

POLICE PROTECTION: preservation of law and order and traffic safety. Includes highway police patrols, crime prevention activities, police communications, detention and custody of persons awaiting trial, traffic safety, vehicular inspection and the like.

PUBLIC WELFARE: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include cash assistance payments directly to needy persons under categorical and other welfare programs, vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs, welfare institutions, and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its hospital and health agencies are classed under those headings.

## I. SCHOOL EXPENDITURES

1–Per-Capita State Expenditures for All Education, 1971 ..... 60

2–Per-Capita Total Expenditures of State and Local Governments for All Education, 1970-71 ..... 60

3–State and Local Total Government Expenditures for All Education as Percent of Direct Expenditures for All Functions, 1970-71 ..... 60

4–State and Local Government Expenditures for All Education in 1970-71 as Percent of Personal Income in 1971 ..... 61

5–State Exependitures for State Institutions of Higher Education per Capita of Population, 1971 ..... 61

6–Per-Capita State and Local Government Expenditures for Higher Education, 1970-71 ..... 61

7–Per-Capita State and Local Expenditures for Local Schools (Including Capital Outlay), 1970-71 ..... 62

8–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1971-72 (Revised) ..... 62

9–Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance as Percent of National Average, 1971-72 (Revised) ..... 62

10–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1972-73 ..... 63

11–Current Expenditures per Public-School Pupil in Average Daily Attendance as Percent of National Average, 1972-73 ..... 63

12–Total Current Expenditures for Public Elementary and Secondary School in 1971-72 as Percent of Personal Income in 1971 ..... 63

13–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Attendance, 1962-63 to 1972-73 ..... 64

14–Current Expenditures per Pupil in Average Daily Membership, 1971-72 (Revised) ..... 64

15–Current Expenditures per Pupil in Average Daily Membership, 1972-73 ..... 64

16–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Membership, 1962-63 to 1972-73 ..... 65

17–State Direct Expenditures for Public Welfare as Percent of State Direct Expenditures for All Education, 1971 ..... 65

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

CURRENT EXPENDITURES: all amounts spent at all levels of administration—state, intermediate, and basic local—for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the intermediate (county) departments of education, employers' (state, intermediate, and local) contributions to retirement systems and/or social security on behalf of public-school employees, and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

EDUCATION: provision or support of schools and other educational facilities and services.

EXPENDITURES: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

HIGHER EDUCATION: includes facilities and activities of all educational institutions beyond the high-school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PUBLIC WELFARE: support of and assistance of needy persons contingent upon their need, including intergovernmental expenditure to help finance public welfare programs administered by local governments. Direct expenditure under this heading includes cash assistance paid by the state to needy persons under the categorical programs (Old Age Assistance, Aid to Families with Dependent Children, Aid to the Blind, and Aid to the Disabled) and under any other state-administered welfare program, segregable payments directly to private vendors for medical care, burials, and other commodities and services provided under welfare programs for the needy (including all direct vendor payments under medical assistance programs), and expenditure for state administration of public welfare programs, including the provision and operation of welfare institutions. Health and hospital services provided directly by the state, and payments to local governments for such purposes, are reported under other functional headings rather than here. Benefits not contingent upon need, such as houses and other aids to veterans as a class, also fall outside the public welfare classification.

## INDEX

*Numbers refer to the tables.*

Administrative units:
  number of. B-1
Average daily attendance:
  expenditures per pupil. I-8. I-10
  expenditures per pupil, increase in. I-13
  expenditures per pupil as percent of national average. I-9. I-11
  expenditures per pupil as percent of personal income. I-12
  number. B-7
  percent of enrollment. B-8
  percent of average daily membership. B-10
  personal income per pupil. E-8
  school revenue per pupil. G-1. G-2
Average daily membership:
  expenditures per pupil. I-14. I-15
  expenditures per pupil. increase in. I-16
  number. B-9
  percent in average daily attendance. B-10
  percent of enrollment. B-11
  percent of school-age population. B-12
  personal income per pupil. E-8

Birth rate. A-11
Buying income:
  households. E-11. E-12. E-13. E-14

Crimes:
  increase in. J-9
  number of. J-8

Deaths:
  infant rate. A-12
Dentists:
  number of. J-7
Debt:
  of state and local governments. H-10
  of state governments. H-8. H-9

Educational attainment:
  adults with less than 5 years of schooling. D-1
  adults with less than 1 year of high school. D-2
  adults with 4 years of high school or more. D-3
  adults with 4 years of college or more. D-4
  high-school graduates as percent of ninth-graders. D-6
  median school years completed by adults. D-5

Employment:
  government employees as percent of nonagricultural employees. J-5
  number of federal civil employees. J-3
  number of government employees. J-4

Enrollment:
  cumulative. B-4
  fall. B-2
  percent change in. B-5
  percent in average daily attendance. B-8
  percent in average daily membership. B-11
  percent in school lunch program. B-14
  percent of school-age population. B-3
  percent public. B-6

Expenditures:
  education. as percent of personal income. I-4
  education. as percent of total expenditures. I-3
  education. per capita. I-1
  fire protection. per capita. H-6
  general. per capita. H-1
  general. state-local per capita. H-2
  health and hospitals. per capita. H-4
  highways. per capita. H-7
  police protection. per capita. H-5
  school. as percent of personal income. I-12
  school. per pupil in average daily attendance. I-8. I-10
  school. per pupil in average daily membership. I-14. I-15
  welfare. per capita. H-3

Farm income:
  cash receipts. E-10

Federal government:
  number of civilian employees. J-3
  percent of enrollment in school lunch program. B-14
  percent of land owned by. J-2
  percent of school revenue from. G-9. G-10
Fire protection:
  expenditures per capita. H-6

Governments (national, state, and local):
  employees as percent of employees in nonagricultural establishments. J-5
  number of employees. J-4

Health and hospitals:
  birth rate. A-11
  death rate of infants. A-12
  expenditures per capita. H-4
  number of dentists. J-7
  number of physicians. J-6

High-school graduates:
  adults with 4 years of high school or more. D-3
  increase in number. D-7
  percent of ninth-graders. D-6

Higher education:
adults with 4 years of college or more. D-4
instructional staff. C-3
noninstructional staff. C-4
state and local expenditures for. per capita. I-6
state expenditures for. per capita. I-5
Highways:
expenditures for. per capita. H-7
Households:
buying income. E-11
percent with incomes of $10.000 or more. E-14
percent with incomes under $5.000. E-13
percent with incomes under $3.000. E-12

Income:
*See* Farm income; Personal income
Instructional staff:
number in higher education. C-3
number in public schools. C-1
salaries. C-14. C-16
salaries. increase in. C-18. C-19
salaries. percent of national average. C-15. C-17

Local and state governments combined:
*See* State and local governments combined
Local governments:
percent of school revenue from. G-5. G-6
property tax revenue. local. as percent of state-local F-9
property tax revenue per capita. F-7
school revenue as percent of state-local. G-11
tax revenue. per capita. F-12
Lunch (school) program:
percent of enrollment participating. B-14

Men teachers:
percent of all teachers. C-6

Noninstructional staff:
number in higher education. C-4
number in public schools. C-2

Personal income:
buying income per household. E-11
government employment income as percent of total. E-9
household incomes of $10.000 or more. E-14
household incomes under $5.000. E-13
household incomes under $3.000. E-12
per capita. E-3
per-capita increase. E-5. E-6
per capita. percent of national average. E-4
per child of school age. E-7
per pupil in average daily attendance. E-8
percent from government employment. E-9
school expenditures as percent of. I-12
school revenue as percent of. G-3
state and local expenditures for education as percent of. I-4
state and local property tax revenue as percent of. F-10
state and local school revenue as percent of. G-4
state and local tax revenue as percent of. F-5
state tax revenue as percent of. F-13
tax revenue as percent of. F-5
total. E-1
total. percent change in. E-2
Physicians:
number of. J-6
Police protection:
expenditures for. per capita. H-5
Population:
age 65 and older. as percent of total. A-9
age 65 and older. percent increase. A-10
age 21-64. A-7
density. A-13
educational attainment. D-1. D-2. D-3. D-4. D-5
percent black. A-4
school age. A-5
school age. number per 100 age 21-64. A-8
school age. percent of total. A-6
total. A-1. A-2
total. change in. A-3
urban. percent. A-14
Public welfare:
expenditures per capita. H-3
Pupil-teacher ratio. C-5

Retail sales:
per capita. J-1
Revenue:
school revenue as percent of personal income. G-3
school revenue per pupil in average daily attendance. G-1. G-2
state and local government combined. F-1. F-2
of state and local governments from own sources. F-3
*See also* School revenue; Tax revenue

Salaries:
elementary teachers. C-7. C-8
instructional staff. C-14. C-16
instructional staff. increase in. C-18. C-19
instructional staff. percent of national average. C-15. C-17
percent of teachers paid $10.500 or more. C-13
secondary teachers. C-9. C-10
teachers. C-11. C-12
School-age population:
number. A-5
number per 100 age 21-64. A-8
percent enrolled in school. B-3
percent in average daily membership. B-12
percent of total population. A-6

personal income per child. E-7
School districts:
number of. B-1
School expenditures:
per pupil in average daily attendance. I-8. I-10
per pupil in average daily attendance as percent of national average. I-9. I-11
per pupil in average daily attendance. increase in. I-13
per pupil in average daily membership. I-14. I-15
per pupil in average daily membership. increase in. I-16
as percent of personal income. I-12
state. I-1
state and local. I-2. I-7
state and local as percent of all expenditures. I-3
state and local as percent of personal income. I-4
state expenditure for welfare as percent of. I-17
School lunch program:
percent of enrollment participating. B-14
School revenue:
local as percent of state-local. G-11
per pupil in average daily attendance. G-1. G-2
percent from federal government. G-9. G-10
percent from local governments. G-5. G-6
percent from state governments. G-8. G-9
as percent of personal income. G-3
state and local. as percent of personal income. G-4
School term:
length of. B-13
Staff. instructional:

## INTRODUCTION

THE FIGURES used in the rankings presented in this Report are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1972-73 estimates for certain items are given along with 1973-74 estimates.

The national totals shown in most tables include the District of Columbia; but because the District comprises a single urban school system, and hence is not comparable to state school systems, figures for it are not shown separately. Whenever data for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands are available, they are given in a separate listing beginning on page 74.

Each section of this report consists of a list of definitions appropriate to the tables, a list of sources (complete citations), and the tables. Appended to each table are the sources in abbreviated form and references to pertinent definitions.

The states are ranked beginning with the largest figure. When figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

Dollar amounts for Alaska should be reduced by 30 percent and those for Hawaii by 19 percent to make the purchasing power of Alaska and Hawaii figures generally comparable to figures reported for other areas of the United States. This is noted in the tables where it applies.

It should be noted that Tables E-11, E-12, E-13, E-14, and J-1 consist of data from the Sales Management Survey of Buying Power, a copyrighted work. Anyone wishing to reproduce these tables must get permission direct from Sales Management, 630 Third Avenue, New York, New York 10017.

4–Percent of Population That Is Black, 1970 ..... 9

5–Estimated School-Age Population, July 1, 1973 ..... 9

6–Estimated School-Age Population as Percent of Total Population, 1973 ..... 9

7–Percent of Total Resident Population Aged 21-64 in 1972 ..... 10

8–Number of School-Age Children per 100 Adults Aged 21-64 in 1972 ..... 10

9–Percent of Population Aged 65 or Older, July 1, 1972 ..... 10

10–Percent Increase in Population 65 Years of Age and Older, 1970 to 1972 ..... 11

11–Birth Rates, 1972 (Provisional) ..... 11

12–Estimated Number of Infant Deaths Under One Year per 1,000 Live Births, 1972 ..... 11

13–Population per Square Mile, 1973 ..... 12

14–Percent of Population That is Urban, 1972 ..... 12

15–Percent of Population in Central Cities of Standard Metropolitan Statistical Areas ..... 12

**Definitions**

BIRTH RATE: number of live births per 1,000 population (excluding armed forces abroad).

LAND: dry land and land temporarily or partially covered by water, as marshland, swamps, etc.; streams and canals under one-eight statute mile wide, and lakes reservoirs, ponds under 40 acres of area.

RESIDENT POPULATION: includes persons in the armed forces stationed in each area.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

STANDARD METROPOLITAN STATISTICAL AREA: each SMSA contains at least: (a) One central city with 50,000 inhabitants or more, or (b) A city having a population of at least 25,000 which, together with the population of contiguous places (incorporated or unincorporated) having a population density of at least 1,000 persons per square mile, constitutes for general economic and social purposes a single community with a combined population of at least 50,000, provided that the county (or counties) in which the city and contiguous places are located has a total population of at least 75,000. (In New England, the cities and towns qualifying for inclusion in an SMSA must have a combined population of at least 75,000.)

The SMSA includes the county in which the central city is located, and adjacent counties that are found to be metropolitan in character and economically and socially integrated with the county of the central city. In New England, the requirement with regard to a central city as a nucleus still holds, but, as noted above, the units comprising the area are cities and towns rather than counties. The county (or town in New England) is the basic statistical unit. An SMSA may contain more than one city of 50,000 (or 25,000) inhabitants. The largest city is always included in the title of the area; however, the title may include the names of one or two additional cities. An SMSA may cross State lines.

URBAN POPULATION: persons living in (a) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin), (b) the densely settled urban fringe, whether incorporated or unincorporated, of urbanized areas, (c) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 or more per square mile, (d) counties in states other than the New England states, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile, and (e) unincorporated places of 2,500 inhabitants or more.

## B. ENROLLMENT AND ATTENDANCE

1–Number of Basic Administrative Units (Operating School Districts), 1973-74 ..... 15

2–Public School Enrollment, Fall 1973 ..... 15

3–Fall 1973 Enrollment in Public Schools as Percent of School-Age Population, July 1, 1973 ..... 15

4–Estimated Public-School Enrollment as Percent of Total School Enrollment, Fall 1972 .. 16

5–Estimated Average Daily Attendance in Public Schools, 1973-74 ..... 16

6–Average Daily Membership in Public Schools, 1973-74 ..... 16

7–Average Daily Attendance as Percent of Average Daily Membership, 1973-74 ..... 17

8–Average Daily Membership as Percent of School-Age Population, 1973-74 ..... 17

9–Average Length of Public-School Term in Days, 1969-70 ..... 17

10–Percent of Elementary- and Secondary-School (Public and Private) Enrollment Participating in Federally Subsidized School Lunch Program, 1972 ..... 18

11–Total Enrollment in Institutions of Higher Education, Fall 1970 ..... 18

12–Percent of Total College Students in a State Who Are Residents of the State, Fall 1968 ..... 18

13–Percent of States' College Students Attending College in Home State, Fall 1968 ..... 19

BEST COPY AVAILABLE

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging; those present plus those absent, when schools are actually in session.

AVERAGE LENGTH OF SCHOOL TERM: computed by dividing the aggregate days of attendance by the average number of days schools were in session and pupils were in attendance during the year. some states reported the state mandated minimum number of days rather than the computed average number of days the schools were open.

BASIC ADMINISTRATIVE UNIT: the local school district, the unit for the operation of elementary and secondary schools or for contracting for school services.

COLLEGE STUDENTS: students taking work creditable toward a bachelor's or higher degree.

ENROLLMENT: a cumulative count of the number of different pupils registered during the entire school year. new entrants are added, but those leaving are not subtracted.

ENROLLMENT IN HIGHER EDUCATION: includes students whose programs of study are creditable toward a bachelor's or higher degree and also students in 1-, 2-, or 3-year undergraduate programs which are not creditable toward a bachelor's or higher degree but which are designed to prepare for immediate employment or to provide general education.

ENROLLMENT PARTICIPATING IN SCHOOL LUNCH PROGRAM: represents average number of children participating in December 1973. The number of children may have been higher in some states during other months but December was the peak month in terms of children participating nationally.

FALL ENROLLMENT: the count of the pupils registered in the fall of the school year, usually October; junior colleges are omitted.

INDEMNITY PLAN: a subsidy program to expand markets for agricultural products, maintain outlets for government-owned commodities, and support school-lunch programs. Sponsors of school-lunch programs are reimbursed by the federal government for local purchases of food on a basis of quality and quantity of meals served.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

## C. Teachers

1–Total Instructional Staff (Full-Time Equivalent) in Local Public Schools, October 1972 ..... 22

2–Total Non-Instructional Staff (Full-Time Equivalent) in Local Public Schools, October 1972 ..... 22

3–Total Instructional Staff (Full-Time Equivalent) in Public Institutions of Higher Education, October 1972 ..... 22

4–Total Non-Instructional Staff (Full-Time Equivalent) in Public Institutions of Higher Education, October 1972 ..... 23

5–Pupils Enrolled per Teacher in Public Elementary and Secondary Schools, Fall 1972 ..... 23

6–Pupils in Average Daily Attendance per Teacher in Public Elementary and Secondary Schools, Fall 1972 ..... 23

7–Pupils in Average Daily Membership in Public Elementary and Secondary Schools, Fall 1972 ..... 24

8–Percent of Public Elementary- and Secondary-School Teachers Who Are Men, 1973-74 ..... 24

9–Estimated Average Salaries of Elementary-School Teachers, 1972-73 (Revised) ..... 24

10–Estimated Average Salaries of Elementary-School Teachers, 1973-74 ..... 25

11–Estimated Average Salaries of Secondary-School Teachers, 1972-73 (Revised) ..... 25

12–Estimated Average Salaries of Secondary-School Teachers, 1973-74 ..... 25

13–Estimated Average Salaries of All Teachers in Public Schools, 1972-73 (Revised) ..... 26

14–Estimated Average Salaries of All Teachers in Public Schools, 1973-74 ..... 26

15–Percent of Public-School Teachers Paid $10,500 or More, 1973-74 ..... 26

16–Estimated Average Salaries of Instructional Staff in Public Schools, 1972-73 (Revised) ..... 27

17–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1972-73 (Revised) ..... 27

18–Estimated Average Salaries of Instructional Staff in Public Schools, 1973-74 ..... 27

19–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1973-74 ..... 28

20–Percent Increase in Instructional Staff Salaries, 1963-64 to 1973-74 ..... 28

21–Percent Increase in Instructional Staff Salaries, 1972-73 to 1973-74 ..... 28

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

INSTRUCTIONAL STAFF: Number of positions, not the number of different individuals occupying the positions during the school year. In local schools includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior college staff. In institutions of higher education includes those engaged in teaching and related academic research in colleges and universities, including those in hospitals, agricultural experiment stations, and farms.

NON-INSTRUCTIONAL STAFF: In local schools includes administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems. In institutions of higher education includes cafeteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

11–Net Effective Buying Income per Household, 1972 ..... 37

12–Percent of Households with Cash Incomes Under $3,000 in 1972 ..... 37

13–Percent of Households with Cash Incomes Under $5,000 in 1972 ..... 38

14–Percent of Households with Cash Incomes of $10,000 or More in 1972 ..... 38

15–Median Family Income, 1970 ..... 38

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

EFFECTIVE BUYING INCOME: same as disposable personal income; is obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

HOUSEHOLD: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pensions, health, and welfare funds.

SCHOOL-AGE POPULATION: population aged 5 through 17, inclusive.

BEST COPY AVAILABLE

**Definitions**

GENERAL REVENUE all revenue of a government except the kinds of revenue classified as utility revenue, liquor stores revenue, and insurance trust revenue. All tax collections, even if designated for insurance trust or local utility purposes are classified under general revenue.

PERSONAL INCOME state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PROPERTY TAXES taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates) and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

REVENUE FROM OWN SOURCES all revenue of a government (taxes and other) except intergovernmental.

TAXES compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government; however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

10–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1973-74 ..... 51

11–Local Public-School Revenue as Percent of State and Local School Revenue, 1973-74 ..... 51

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds and private pension, health, and welfare funds.

REVENUE: revenue receipts for public-school purposes from LOCAL, intermediate and other sources include all funds for direct expenditure by local and intermediate districts for the school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts, and tuition and fees received from patrons.

Revenue receipts from STATE sources include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and or social security on behalf of public-school employees, for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the costs of textbooks, buses, supplies, etc. purchased by the state for distribution to local school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included.

Revenue receipts from FEDERAL sources include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.)

REVENUE RECEIPTS: includes all revenue receipts available for expenditures for current expenses, capital outlay, and debt service for public schools, including all appropriations from general funds of federal, state, county, and local governments, receipts from taxes levied for school purposes, income from permanent school funds and endowments, income from leases of school lands, interest on bank deposits, tuition, gifts, etc. Amounts which increase the school indebtedness or which represent exchange of school property for money are excluded.

9–Per-Capita Net Long-Term Debt of State Governments at End of Fiscal Year, 1972 ..... 36

10–Per-Capita Debt of State and Local Governments Outstanding at End of Fiscal Year, 1971-72 ..... 37

## Definitions

DEBT: the major portion of all state and local government debt is long-term indebtedness. A substantial portion of such long-term debt is nonguaranteed debt, i.e., obligations payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes.

EXPENDITURE: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FIRE PROTECTION: comprises fire fighting and fire protection activities of local governments. Federal and state expenditures for forest fire fighting and prevention are classified under "natural resources."

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

GENERAL EXPENDITURE: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

HEALTH: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

HIGHWAYS: streets, highways, and structures necessary for their use, street lighting, snow and ice removal, toll highway and bridge facilities, and ferries.

HOSPITALS: establishment and operation of hospital facilities, provision of hospital care, and support of other public or private hospitals.

NET LONG-TERM DEBT: total long-term debt outstanding minus offsets to long-term debt, which comprise financial assets of sinking funds and other reserve funds, however designated, which are specifically held for retirement of long-term debt. Full faith and credit includes all long-term credit obligations of the government and its agencies backed by full faith and credit (implying the power of taxation).

POLICE PROTECTION: preservation of law and order and traffic safety. Includes highway police patrols, crime prevention activities, police communications, detention and custody of persons awaiting trial, traffic safety, vehicular inspection and the like.

PUBLIC WELFARE: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include cash assistance payments directly to needy persons under categorical and other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs; welfare institutions; and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its hospital and health agencies are classed under those headings.

17–Total Expenditures for Vocational Education, Fiscal Year 1972 ..... 65

18–Percent of Expenditures for Vocational Education from Federal Funds, Fiscal Year 1972 ..... 65

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

CURRENT EXPENDITURES: all amounts spent at all levels of administration—state, intermediate, and basic local—for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the 'intermediate (county) departments of education, employers' (state, intermediate, and local) contributions to retirement systems and or social security on behalf of public-school employees, and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

EDUCATION: provision or support of schools and other educational facilities and services.

EXPENDITURES: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

HIGHER EDUCATION: includes facilities and activities of all educational institutions beyond the high-school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

11–Per-Capita Public Assistance Grants to State and Local Governments from Federal Government, 1971-72 ..... 71

12–Per-capita Economic Opportunity and Manpower Grants to State and Local Governments from Federal Government, 1971-72 ..... 71

13–Per-capita Highway Grants to State and Local Governments from Federal Government, 1971-72 ..... 72

How the States Ranked in Quality of Life Study ..... 73

**Definitions**

ECONOMIC OPPORTUNITY AND MANPOWER: employment security administration; manpower development activities and related programs: work experience, community action, and Neighborhood Youth Corps; work incentive activities; and public employment.

GOVERNMENT EMPLOYEES: all persons who work for any governmental unit, federal, state, local, or international, regardless of the activity which the particular agency carries on.

HIGHWAYS: federal-aid highways and trust fund activities, restoration of roads and bridges, flood relief, secondary and feeder roads, grade-crossing elimination, public land highways; forest highways; and beautification and control of outdoor advertising, highway safety, and landscaping and scenic enhancement.

MAJOR CRIMES: murder, non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny ($50 or more), and auto theft.

PUBLIC ASSISTANCE: all federal-state assistance programs of income maintenance, medical and social services, demonstration projects, and administration, old-age assistance, aid to families with dependent children, and aid to the blind, aid to the permanently and totally disabled, aid to the aged, blind, or disabled, and medical assistance.

## J-8—NUMBER OF KNOWN MAJOR CRIMES PER 100,000 POPULATION, 1972

| | | |
|---|---|---|
| 1. | California | 4,606.2 |
| 2. | Nevada | 4,236.6 |
| 3. | Colorado | 4,054.5 |
| 4. | Florida | 3,920.2 |
| 5. | Michigan | 3,819.5 |
| 6. | Arizona | 3,745.9 |
| 7. | New York | 3,488.5 |
| 8. | Oregon | 3,443.2 |
| 9. | New Mexico | 3,417.3 |
| 10. | Massachusetts | 3,391.4 |
| 11. | Maryland | 3,379.3 |
| 12. | Rhode Island | 3,267.5 |
| 13. | Delaware | 3,162.5 |
| 14. | Washington | 3,160.8 |
| 15. | Alaska | 3,126.5 |
| 16. | New Jersey | 3,033.1 |
| 17. | Hawaii | 3,011.9 |
| | UNITED STATES | 2,829.5 |
| 18. | Texas | 2,655.6 |
| 19. | Missouri | 2,654.2 |
| 20. | Utah | 2,541.5 |
| 21. | Illinois | 2,483.8 |
| 22. | Louisiana | 2,470.5 |
| 23. | Connecticut | 2,470.4 |
| 24. | Georgia | 2,468.9 |
| 25. | Ohio | 2,361.1 |
| 26. | South Carolina | 2,287.3 |
| 27. | Indiana | 2,273.7 |
| 28. | Minnesota | 2,256.0 |
| 29. | Kansas | 2,139.4 |
| 30. | Idaho | 2,134.4 |
| 31. | Oklahoma | 2,101.5 |
| | Tennessee | 2,101.5 |
| 33. | Virginia | 2,032.2 |
| 34. | North Carolina | 1,933.0 |
| 35. | Montana | 1,926.7 |
| 36. | Wyoming | 1,906.1 |
| 37. | Alabama | 1,842.2 |
| 38. | Wisconsin | 1,783.1 |
| 39. | Pennsylvania | 1,780.3 |
| 40. | Kentucky | 1,766.7 |
| 41. | Nebraska | 1,720.2 |
| 42. | Arkansas | 1,606.8 |
| 43. | Maine | 1,518.1 |
| 44. | Iowa | 1,461.3 |
| 45. | Vermont | 1,446.3 |
| 46. | New Hampshire | 1,377.7 |
| 47. | Mississippi | 1,320.1 |
| 48. | South Dakota | 1,278.8 |
| 49. | West Virginia | 1,056.8 |
| 50. | North Dakota | 1,023.9 |

FBI, *Crime in the United States*, p. 62-66.

See definition of *major crimes*, p. 67.

## J-9—PERCENT CHANGE IN RATE OF KNOWN MAJOR CRIMES, 1971 TO 1972

| | | |
|---|---|---|
| 1. | Mississippi | +18.4 |
| 2. | Maine | +12.7 |
| 3. | Wyoming | +11.8 |
| 4. | South Dakota | +10.3 |
| 5. | Nevada | +10.2 |
| 6. | South Carolina | +9.9 |
| 7. | Montana | +8.9 |
| 8. | Alaska | +8.6 |
| 9. | Oregon | +8.1 |
| 10. | Nebraska | +8.0 |
| 11. | Arizona | +6.7 |
| 12. | Colorado | +6.3 |
| 13. | Idaho | +6.0 |
| 14. | West Virginia | +4.7 |
| 15. | Georgia | +3.7 |
| 16. | Vermont | +2.6 |
| 17. | Arkansas | +2.2 |
| 18. | Tennessee | +2.0 |
| 19. | North Dakota | +1.8 |
| | Wisconsin | +1.8 |
| 21. | Illinois | +1.4 |
| 22. | Washington | +1.1 |
| 23. | Utah | +0.5 |
| 24. | Oklahoma | +0.1 |
| 25. | Maryland | −0.3 |
| | North Carolina | −0.3 |
| | Rhode Island | −0.3 |
| 28. | Kansas | −0.7 |
| 29. | Iowa | −1.0 |
| 30. | California | −1.2 |

| 43. | Virginia | −4.4 |
| 44. | Michigan | −4.6 |
| 45. | Ohio | −4.8 |
| 46. | Connecticut | −6.8 |
| 47. | Kentucky | −8.7 |
| 48. | Delaware | −10.2 |
| 49. | New York | −12.9 |
| 50. | Hawaii | −15.6 |

FBI, *Crime in the United States*, p. 62-66.

See definition of *major crimes*, p. 67.

## J-10—PERCENT OF POPULATION OF VOTING AGE VOTING IN PRESIDENTIAL ELECTION, NOVEMBER 1972

| | | |
|---|---|---|
| 1. | South Dakota | 70.8 |
| 2. | North Dakota | 69.8 |
| 3. | Utah | 69.4 |
| 4. | Montana | 69.0 |
| 5. | Minnesota | 68.0 |
| 6. | Connecticut | 65.7 |
| 7. | Idaho | 64.8 |
| 8. | Wyoming | 64.7 |
| 9. | West Virginia | 64.5 |
| 10. | Iowa | 64.2 |
| 11. | New Hampshire | 64.1 |
| 12. | Delaware | 63.5 |
| 13. | Wisconsin | 62.7 |
| 14. | Illinois | 62.6 |
| | Maine | 62.6 |
| 16. | Massachusetts | 62.2 |
| 17. | Washington | 62.0 |
| 18. | Oregon | 61.9 |
| 19. | Rhode Island | 61.8 |
| 20. | Colorado | 61.2 |
| 21. | New Mexico | 60.7 |
| 22. | Indiana | 60.6 |
| 23. | Vermont | 60.3 |
| 24. | New Jersey | 59.6 |
| 25. | Kansas | 59.4 |
| | Michigan | 59.4 |
| 27. | California | 59.2 |
| 28. | Ohio | 57.0 |
| 29. | Oklahoma | 56.8 |
| 30. | Missouri | 56.7 |
| 31. | Nebraska | 56.4 |
| 32. | Pennsylvania | 56.3 |
| 33. | New York | 56.1 |
| | UNITED STATES | 55.6 |
| 34. | Arizona | 52.7 |
| 35. | Nevada | 52.2 |
| 36. | Hawaii | 50.9 |
| 37. | Florida | 50.6 |
| 38. | Maryland | 50.4 |
| 39. | Arkansas | 49.4 |
| 40. | Kentucky | 48.4 |
| 41. | Alaska | 47.6 |
| 42. | Mississippi | 46.0 |
| 43. | Texas | 45.2 |
| 44. | Louisiana | 45.0 |
| 45. | Tennessee | 44.3 |
| 46. | Alabama | 44.2 |
| 47. | North Carolina | 43.9 |
| 48. | South Carolina | 39.5 |
| 49. | Georgia | 37.8 |
| 50. | Virginia | 37.2 |

Census, *Projections of the Population of Voting Age for States: November 1972*, p. 6.

Guthrie, *Statistics of the Presidential and Congressional Election of November 7, 1972*, p. 51-52.

## J-11—PER-CAPITA PUBLIC ASSISTANCE GRANTS TO STATE AND LOCAL GOVERNMENTS FROM FEDERAL GOVERNMENT, 1971-72

| | | |
|---|---|---|
| 1. | New York | $140 |
| 2. | California | 99 |
| 3. | Massachusetts | 85 |
| 4. | Oklahoma | 79 |
| 5. | Vermont | 78 |
| 6. | Illinois | 71 |
| 7. | Georgia | 69 |
| | Mississippi | 69 |
| 9. | Maine | 68 |
| 10. | Rhode Island | 65 |
| 11. | Louisiana | 64 |

## INDEX

*Numbers refer to the tables.*

Administrative units:
  number of, B-1
Average daily attendance:
  expenditures per pupil, I-8, I-10
  expenditures per pupil, increase in, I-13
  expenditures per pupil as percent of national average, I-9, I-11
  expenditures per pupil as percent of personal income, I-12
  number, B-5
  percent of average daily membership, B-7
  personal income per pupil, E-8
  pupil-teacher ratio, C-6
  school revenue per pupil, G-1, G-2
Average daily membership:
  expenditures per pupil, I-14, I-15
  expenditures per pupil, increase in, I-16
  number, B-6
  percent in average daily attendance, B-7
  percent of school-age population, B-8
  personal income per pupil, E-8
  pupil-teacher ratio, C-7

Birth rate, A-11
Buying income:
  households, E-11, E-12, E-13, E-14

Crimes:
  number of, J-8
  percent change, J-9

Deaths:
  infant rate, A-12
Dentists:
  number of, J-7
Debt:
  of state and local governments, H-10
  of state governments, H-8, H-9
Draftees:
  percent failing mental requirements, D-8

Economic opportunity and manpower:
  per-capita federal grants, J-12

Educational attainment:
  adults with less than 5 years of schooling, D-1
  adults with less than 1 year of high school, D-2
  adults with 4 years of high school or more, D-3
  adults with 4 years of college or more, D-4
  high-school graduates as percent of ninth-graders, D-6
  median school years completed by adults, D-5

Employment:
  government employees as percent of nonagricultural employees, J-5
  number of federal civil employees, J-3
  number of government employees, J-4

Enrollment:
  fall, B-2
  percent in school lunch program, B-10
  percent of school-age population, B-3
  percent public, B-4

Expenditures:
  education, as percent of personal income, I-4
  education, as percent of total expenditures, I-3
  education, per capita, I-1, I-2
  fire protection, per capita, H-6
  general government, per capita, H-1
  general, state-local government, per capita, H-2
  health and hospitals, per capita, H-4
  higher education, per capita, I-5, I-6
  highways, per capita, H-7
  police protection, per capita, H-5
  school, as percent of personal income, I-12
  school, per pupil in average daily attendance, I-8, I-10
  school, per pupil in average daily membership, I-14, I-15
  vocational education, I-17, I-18
  welfare, per capita, H-3, J-11

Farm income:
  cash receipts, E-10

Federal government:
  economic opportunity and manpower grants, J-12
  expenditures for vocational education, I-17, I-18
  highway grants, J-13
  number of civilian employees, J-3
  percent of enrollment in school lunch program, B-10
  percent of land owned by, J-2
  percent of school revenue from, G-9, G-10
Fire protection:
  expenditures per capita, H-6

Governments (national, state, and local):
  employees as percent of employees in nonagricultural establishments, J-5
  number of employees, J-4

Health and hospitals:
  birth rate, A-11

BEST COPY AVAILABLE

death rate of infants, A-12
expenditures per capita, H-4
number of dentists, J-7
number of physicians, J-6

High-school graduates:
adults with 4 years of high school or more, D-3
increase in number, D-7
percent of ninth-graders, D-6
Higher education:
adults with 4 years of college or more, D-4
enrollment, B-11
enrollment, percent studying in home state, B-12, B-13
instructional staff, C-3
noninstructional staff, C-4
state and local expenditures for, per capita, I-6
state expenditures for, per capita, I-5
Highways:
expenditures for, per capita, H-7
federal grants, per capita, J-13
Households:
buying income, E-11
percent with incomes of $10,000 or more, E-14
percent with incomes under $5,000, E-13
percent with incomes under $3,000, E-12

Income:
*See* Farm income; Personal income
Instructional staff:
number in higher education, C-3
number in public schools, C-1
salaries, C-16, C-18
salaries, increase in, C-20, C-21
salaries, percent of national average, C-17, C-19

Local and state governments combined:
*See* State and local governments combined
Local governments:
percent of school revenue from, G-5, G-6
property tax revenue, local, as percent of state-local, F-9
property tax revenue per capita, F-7
school revenue, as percent of state-local, G-11
tax revenue, per capita, F-12
Lunch (school) program:
percent of enrollment participating, B-10

Men teachers:
percent of all teachers, C-8

Noninstructional staff:
number in higher education, C-4
number in public schools, C-2

Personal income:
buying income per household, E-11
family income, E-15
government employment income as percent of total, E-9
household incomes of $10,000 or more, E-14
household incomes under $5,000, E-13
household incomes under $3,000, E-12
per capita, E-3
per-capita increase, E-5, E-6
per capita, percent of national average, E-4
per child of school age, E-7
per pupil in average daily attendance, E-8
percent from government employment, E-9
school expenditures as percent of, I-12
school revenue as percent of, G-3
state and local expenditures for education as percent of, I-4
state and local property tax revenue as percent of, F-9
state and local school revenue as percent of, G-4
state and local tax revenue as percent of, F-5
state tax revenue as percent of, F-13
tax revenue as percent of, F-5
total, E-1
total, percent change in, E-2
Physicians:
number of, J-6

## INTRODUCTION

THE FIGURES used in the tables of rankings are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1973-74 estimates for certain items are given along with 1974-75 estimates.

The national totals shown in most tables include the District of Columbia; figures for the District are shown along with those for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands when they are available. This listing begins on page 72.

Each section of this report consists of a list of definitions appropriate to the tables, a list of sources (complete citations), and the tables. Appended to each table are the sources in abbreviated form.

The states are ranked beginning with the largest figure. When figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

Dollar amounts for Alaska should be reduced by 30 percent and those for Hawaii by 19 percent to make the purchasing power of Alaska and Hawaii figures generally comparable to figures reported for other areas of the United States. This is noted in the tables where it applies.

It should be noted that Tables E-11, E-12, E-13, E-14, and J-1 consist of data from the Sales Management Survey of Buying Power, a copyrighted work. Anyone wishing to reproduce these tables must get permission direct from Sales Management, 630 Third Avenue, New York, New York 10017.

## A. POPULATION

1–Estimated Total Resident Population, July 1, 1973 ..... 8

2–Provisional Estimate of Total Resident Population, July 1, 1974 ..... 8

3–Percent Change in Total Resident Population, 1970-1974 ..... 8

4–Net Migration Rate of Resident Population, April 1, 1970, to July 1, 1973 ..... 9

5–Percent of Population That Is Black, 1970 ..... 9

6–Estimated School-Age Population, July 1, 1974 ..... 9

7–Estimated School-Age Population as Percent of Total Population, 1974 ..... 10

8–Percent of Total Resident Population Aged 21-64 in 1974 ..... 10

9–Number of School-Age Children per 100 Adults Aged 21-64 in 1974 ..... 10

10–Percent of Population Aged 65 or Older, July 1, 1974 ..... 11

11–Percent Increase in Population 65 Years of Age and Older, 1970 to 1974 ..... 11

12–Birth Rates, 1973 (Provisional) ..... 11

13–Estimated Number of Infant Deaths Under One Year per 1,000 Live Births, 1973 ..... 12

14–Population per Square Mile of Land Area, 1974 ..... 12

15–Percent of Population That Is Urban, 1974 ..... 12

16–Percent of Population in Central Cities of Standard Metropolitan Statistical Areas, 1970 ..... 13

**Definitions**

BIRTH RATE: number of live births per 1,000 population (excluding armed forces abroad).

LAND: dry land and land temporarily or partially covered by water, as marshland, swamps, etc; streams and canals under one-eighth statute mile wide; and lakes reservoirs, ponds under 40 acres of area.

NET MIGRATION RATE: The difference between in-migration and out-migration as a percent of the population of April 1, 1970. A minus sign indicates a net loss.

RESIDENT POPULATION: includes persons in the armed forces stationed in each area.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

STANDARD METROPOLITAN STATISTICAL AREA: each SMSA contains at least: (a) One central city with 50,000 inhabitants or more, or (b) A city having a population of at least 25,000 which, together with the population of contiguous places (incorporated or unincorporated) having a population density of at least 1,000 persons per square mile, constitutes for general economic and social purposes a single community with a combined population of at least 50,000; provided that the county (or counties) in which the city and contiguous places are located has a total population of at least 75,000. (In New England, the cities and towns qualifying for inclusion in an SMSA must have a combined population of at least 75,000.)

The SMSA includes the county in which the central city is located, and adjacent counties that are found to be metropolitan in character and economically and socially integrated with the county of the central city. In New England, the requirement with regard to a central city as a nucleus still holds, but, as noted above, the units comprising the area are cities and towns rather than counties. The county (or town in New England) is the basic statistical unit. An SMSA may contain more than one city of 50,000 (or 25,000) inhabitants. The largest city is always included in the title of the area; however, the title may include the names of one or two additional cities. An SMSA may cross state lines.

URBAN POPULATION: persons living in (a) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York and Wisconsin); (b) the densely settled urban fringe, whether incorporated or unincorporated, or urbanized areas; (c) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 or more per square mile; (d) counties in states other than the New England states, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile; and (e) unincorporated places of 2,500 inhabitants or more.

## B. ENROLLMENT AND ATTENDANCE

1–Number of Basic Administrative Units (Operating School Districts), 1974-75 ..... 16

2–Public School Enrollment, Fall 1974 ..... 16

3–Fall 1974 Enrollment in Public Schools as Percent of School-Age Population, July 1, 1974 ..... 16

4–Estimated Public-School Enrollment as Percent of Total School Enrollment, Fall 1973 .. 17

5–Estimated Average Daily Attendance in Public Schools, 1974-75 ..... 17

6–Average Daily Membership in Public Schools, 1974-75 ..... 17

7–Average Daily Attendance as Percent of Average Daily Membership, 1974-75 ..... 18

8–Average Daily Membership as Percent of School-Age Population, 1974-75 ..... 18

9–Average Length of Public-School Term in Days, 1969-70 ..... 18

10–Percent of Public and Private Elementary- and Secondary-School Enrollment Participating in Federally Subsidized School Lunch Program, 1973 ..... 19

11–Total Enrollment in Institutions of Higher Education, Fall 1972 ..... 19

12–Percent Change in Total Enrollment in Institutions of Higher Education, Fall 1970 to Fall 1972 ..... 19

13–Percent of Total College Students in a State Who Are Residents of the State, Fall 1968 ..... 20

14–Percent of States' College Students Attending College in Home State, Fall 1968 ..... 20

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

AVERAGE LENGTH OF SCHOOL TERM: computed by dividing the aggregate days of attendance by the average number of days schools were in session and pupils were in attendance during the year; some states reported the state mandated minimum number of days rather than the computed average number of days the schools were open.

BASIC ADMINISTRATIVE UNIT: the local school district, the unit for the operation of elementary and secondary schools or for contracting for school services.

COLLEGE STUDENTS: students taking work creditable toward a bachelor's or higher degree.

ENROLLMENT: a cumulative count of the number of different pupils registered during the entire school year; new entrants are added, but those leaving are not subtracted.

ENROLLMENT IN HIGHER EDUCATION: includes students whose programs of study are creditable toward a bachelor's or higher degree and also students in 1-, 2-, or 3-year undergraduate programs which are not creditable toward a bachelor's or higher degree but which are designed to prepare for immediate employment or to provide general education.

ENROLLMENT PARTICIPATING IN SCHOOL LUNCH PROGRAM: represents average number of children participating in December. The number of children may have been higher in some states during other months but December was the peak month in terms of children participating nationally.

FALL ENROLLMENT: the count of the pupils registered in the fall of the school year, usually October; junior colleges are omitted.

INDEMNITY PLAN: a subsidy program to expand markets for agricultural products, maintain outlets for government-owned commodities, and support school-lunch programs. Sponsors of school-lunch programs are reimbursed by the federal government for local purchases of food on a basis of quality and quantity of meals served.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

17–Estimated Average Salaries of Instructional Staff in Public Schools, 1974-75 ..... 28

18–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1974-75 ..... 28

19–Percent Increase in Instructional Staff Salaries, 1964-65 to 1974-75 ..... 29

20–Percent Increase in Instructional Staff Salaries, 1973-74 to 1974-75 ..... 29

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

INSTRUCTIONAL STAFF: Number of positions, not the number of different individuals occupying the positions during the school year. In local schools includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior college staff. In institutions of higher education includes those engaged in teaching and related academic research in colleges and universities, including those in hospitals, agricultural experiment stations, and farms.

NON-INSTRUCTIONAL STAFF: In local schools includes administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems. In institutions of higher education includes cafeteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

14–Percent of Households with Effective Buying Power of $10,000 or More in 1973 ..... 38

15–Median Family Income, 1970 ..... 38

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

EFFECTIVE BUYING INCOME: same as disposable personal income; is obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

HOUSEHOLD: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pensions, health, and welfare funds.

SCHOOL-AGE POPULATION: population aged 5 through 17, inclusive.

12–Per-Capita Local Tax Collections, 1972-73 ..... 44

13–State Tax Revenue in 1972-73 as Percent of Personal Income in 1973 ..... 45

**Definitions**

GENERAL REVENUE: all revenue of a government except the kinds of revenue classified as utility revenue, liquor stores revenue, and insurance trust revenue. All tax collections, even if designated for insurance trust or local utility purposes are classified under general revenue.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PROPERTY TAXES: taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates), and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

REVENUE FROM OWN SOURCES: all revenue of a government (taxes and other) except intergovernmental.

TAXES: compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government; however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

8–Estimated Percent of Revenue for Public Elementary and Secondary Schools from State Governments, 1974-75 ..... 50

9–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1973-74 (Revised) ..... 50

10–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1974-75 ..... 51

11–Local Public-School Revenue as Percent of State and Local School Revenue, 1974-75 ..... 51

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds and private pension, health, and welfare funds.

REVENUE: revenue receipts for public-school purposes from LOCAL, intermediate and other sources include all funds for direct expenditure by local and intermediate districts: for the school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and/or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts, and tuition and fees received from patrons.

Revenue receipts from STATE sources include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and/or social security on behalf of public-school employees for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the costs of textbooks, buses, supplies, etc. purchased by the state for distribution to local school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included.

Revenue receipts from FEDERAL sources include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.)

REVENUE RECEIPTS: includes all revenue receipts available for expenditures for current expenses, capital outlay, and debt service for public schools, including all appropriations from general funds of federal, state, county, and local governments, receipts from taxes levied for school purposes, income from permanent school funds and endowments, income from leases of school lands, interest on bank deposits, tuition, gifts, etc. Amounts which increase the school indebtedness or which represent exchange of school property for money are excluded.

## H. GOVERNMENTAL EXPENDITURES AND DEBT

1–Per-Capita Total General Expenditures of the States for All Functions, 1973 ..... 54

2–Per-Capita Total General Expenditures of State and Local Governments, 1972-73 ..... 54

3–Per-Capita Expenditure of State and Local Governments for Public Welfare, 1972-73 ..... 54

4–Per-Capita Expenditures of State and Local Governments for Health and Hospitals, 1972-73 ..... 55

5–Per-Capita Expenditures of State and Local Governments for Police Protection, 1972-73 ..... 55

6–Per-Capita Expenditure of State and Local Governments for Fire Protection, 1972-73 ..... 55

7–Per-Capita Expenditures of State and Local Governments for Highways, 1972-73 ..... 56

8–Per-Capita Net Long-Term Debt (Full Faith and Credit Only) of State Governments at End of Fiscal Year, 1973 ..... 56

9–Per-Capita Net Long-Term Debt of State Governments at End of Fiscal Year, 1973 ..... 56

10–Per-Capita Debt of State and Local Governments Outstanding at End of Fiscal Year, 1972-73 ..... 57

## Definitions

DEBT: the major portion of all state and local government debt is long-term indebtedness. A substantial portion of such long-term debt is nonguaranteed debt, i.e., obligations payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes.

EXPENDITURE: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FIRE PROTECTION: comprises fire fighting and fire protection activities of local governments. Federal and state expenditures for forest fire fighting and prevention are classified under "natural resources."

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

GENERAL EXPENDITURE: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

HEALTH: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

HIGHWAYS: streets, highways, and structures necessary for their use, street lighting, snow and ice removal, toll highway and bridge facilities, and ferries.

HOSPITALS: establishment and operation of hospital facilities, provision of hospital care, and support of other public or private hospitals.

NET LONG-TERM DEBT: total long-term debt outstanding minus offsets to long-term debt, which comprise financial assets of sinking funds and other reserve funds, however designated, which are specifically held for retirement of long-term debt. Full faith and credit includes all long-term credit obligations of the government and its agencies backed by full faith and credit (implying the power of taxation).

POLICE PROTECTION: preservation of law and order and traffic safety. Includes highway police patrols, crime prevention activities, police communications, detention and custody of persons awaiting trial, traffic safety, vehicular inspection and the like.

PUBLIC WELFARE: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include cash assistance payments directly to needy persons under categorical and other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs; welfare institutions; and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its hospital and health agencies are classed under those headings.

10–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1974-75 ..... 63

11–Current Expenditures per Public-School Pupil in Average Daily Attendance as Percent of National Average, 1974-75 ..... 63

12–Total Current Expenditures for Public Elementary and Secondary Schools in 1973-74 as Percent of Personal Income in 1973 ..... 63

13–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Attendance, 1964-65 to 1974-75 ..... 64

14–Current Expenditures per Pupil in Average Daily Membership, 1973-74 (Revised) ..... 64

15–Current Expenditures per Pupil in Average Daily Membership, 1974-75 ..... 64

16–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Membership, 1964-65 to 1974-75 ..... 65

17–Total Expenditures for Vocational Education from Federal and Matching Funds, Fiscal Year 1973 ..... 65

18–Percent of Expenditures for Vocational Education from Federal Funds, Fiscal Year 1973 ..... 65

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

CURRENT EXPENDITURES: all amounts spent at all levels of administration—state, intermediate, and basic local—for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the intermediate (county) departments of education; employers' (state, intermediate, and local) contributions to retirement systems and/or social security on behalf of public-school employees; and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

EDUCATION: provision or support of schools and other educational facilities and services.

EXPENDITURES: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

HIGHER EDUCATION: includes facilities and activities of all educational institutions beyond the high-school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

## J. MISCELLANEOUS

1–Per-Capita Retail Sales, 1973 ..... 68

2–Percent of State Land Owned by the Federal Government, June 10, 1973 ..... 68

3–Number of Federal Civilian Government Employees (Within the United States) per 1,000 Population, June 1973 ..... 68

4–Number of Government Employees (within the United States) per 1,000 Population, June 1973 ..... 69

5–Government Employees as Percent of Employees in Nonagricultural Establishments, 1973 ..... 69

6–Number of Active Physicians per 100,000 Population, 1972 ..... 69

7–Number of Active Dentists per 100,000 Population, 1972 ..... 70

8–Number of Known Major Crimes per 100,000 Population, 1973 ..... 70

9–Percent change in Rate of Known Major Crimes, 1972 to 1973 ..... 70

10–Per-Capita Public Assistance Grants to State and Local Governments from Federal Government, 1972-73 ..... 71

11–Per-Capita Economic Opportunity and Manpower Grants to State and Local Governments from Federal Government, 1972-73 ..... 71

12–Per-Capita Highway Grants to State and Local Governments from Federal Government, 1972-73 ..... 71

**Definitions**

ECONOMIC OPPORTUNITY AND MANPOWER: State administrative expenses (formerly employment security administration), 1963 to date; manpower development activities and related programs, 1963 to date; work experience and training, community action, and Neighborhood Youth Corps, 1965 to date; adult training and development, 1967-70; work incentive activities, 1969 to date; concentrated employment, public service careers, equal employment opportunity, and Operation Mainstream, 1971 to date; public employment, 1972; and minority business development, 1973.

GOVERNMENT EMPLOYEES: all persons who work for any governmental unit, federal, state, local, or international, regardless of the activity which the particular agency carries on.

HIGHWAYS: Cooperative construction of rural post roads, 1930-40; Federal-aid highways (regular and emergency, prewar and postwar) and trust-fund activities, restoration of roads and bridges, flood relief, secondary and feeder roads, grade-crossing elimination, 1931 to date; National Industrial Recovery Act highway activities, 1934-44, 1947-49, and 1951; emergency relief activities, 1936-44 and 1952; access roads, flight strips, strategic highway network, 1942-57 and 1959; public land highways, 1943 to date; payment of claims, 1946-52; war damage in Hawaii, 1948-56; reimbursement of D.C. highway fund, 1955-58; forest highways, 1958 to date; Appalachia highways, 1966-67; and beautification, control of outdoor advertising, highway safety, and landscaping and scenic enhancement, 1967 to date.

MAJOR CRIMES: murder, non-negligent manslaughter, forcible rape, robbery, aggrevated assault, burglary, larceny ($50 or more), and auto theft.

PUBLIC ASSISTANCE: All Federal-State assistance programs of income maintenance, medical and social services, demonstration projects, and administration; reported by aid category through 1968 and thereafter in various summary forms: Old-age assistance, aid to families with dependent children, and aid to the blind, 1936 to date; medical assistance for the aged, 1961-70; aid to the aged, blind, or disabled, 1964 to date; and medical assistance, 1966 to date.

## J-8–NUMBER OF KNOWN MAJOR CRIMES PER 100,000 POPULATION, 1973

| | | |
|---|---|---|
| 1. | Arizona | 6,703.9 |
| 2. | Nevada | 6,632.1 |
| 3. | California | 6,304.9 |
| 4. | Florida | 5,960.3 |
| 5. | Colorado | 5,495.8 |
| 6. | Michigan | 5,489.4 |
| 7. | Oregon | 5,297.1 |
| 8. | Washington | 5,089.9 |
| 9. | Hawaii | 4,958.8 |
| 10. | Alaska | 4,943.3 |
| 11. | Maryland | 4,791.4 |
| 12. | New Mexico | 4,707.9 |
| 13. | Rhode Island | 4,678.3 |
| 14. | Delaware | 4,582.6 |
| 15. | Massachusetts | 4,521.0 |
| 16. | Illinois | 4,324.9 |
| 17. | New York | 4,306.7 |
| 18. | Utah | 4,247.1 |
| 19. | Missouri | 4,141.4 |
| | UNITED STATES | 4,116.4 |
| 20. | New Jersey | 4,082.5 |
| 21. | Texas | 4,046.2 |
| 22. | Connecticut | 3,664.4 |
| 23. | Minnesota | 3,535.6 |
| 24. | Indiana | 3,533.6 |
| 25. | Kansas | 3,513.8 |
| 26. | Ohio | 3,495.9 |
| 27. | Oklahoma | 3,466.4 |
| 28. | Idaho | 3,457.8 |
| 29. | Georgia | 3,430.3 |
| 30. | Wyoming | 3,413.0 |
| 31. | Louisiana | 3,402.9 |
| 32. | Montana | 3,395.3 |
| 33. | South Carolina | 3,327.0 |
| 34. | Virginia | 3,238.7 |
| 35. | Wisconsin | 3,176.9 |
| 36. | Tennessee | 3,060.1 |
| 37. | Iowa | 2,831.6 |
| 38. | North Carolina | 2,811.9 |
| 39. | Nebraska | 2,811.2 |
| 40. | Maine | 2,544.4 |
| 41. | Arkansas | 2,538.9 |
| 42. | Alabama | 2,512.3 |
| 43. | Vermont | 2,498.1 |
| 44. | Pennsylvania | 2,458.8 |
| 45. | New Hampshire | 2,329.3 |
| 46. | Kentucky | 2,265.3 |
| 47. | South Dakota | 2,175.8 |
| 48. | North Dakota | 2,078.4 |
| 49. | Mississippi | 1,926.3 |
| 50. | West Virginia | 1,471.5 |

## J-9–PERCENT CHANGE IN RATE OF KNOWN MAJOR CRIMES, 1972 TO 1973

| | | |
|---|---|---|
| 1. | Arkansas | +17.2 |
| 2. | New Hampshire | +17.0 |
| 3. | Tennessee | +15.6 |
| 4. | Illinois | +14.1 |
| 5. | Nevada | +13.4 |
| 6. | Vermont | +13.3 |
| 7. | Arizona | +13.0 |
| 8. | Wyoming | +12.6 |
| 9. | Georgia | +12.4 |
| 10. | Iowa | +11.8 |
| 11. | Oklahoma | +11.6 |
| 12. | Florida | +10.9 |
| 13. | Alaska | +10.4 |
| 14. | Massachusetts | +10.1 |
| 15. | Maine | +9.6 |
| 16. | Indiana | +9.3 |
| 17. | Washington | +8.2 |
| 18. | Alabama | +8.0 |
| 19. | Connecticut | +7.7 |
| | Wisconsin | +7.7 |
| 21. | Hawaii | +7.5 |
| 22. | Nebraska | +7.0 |
| 23. | Mississippi | +6.7 |
| 24. | New Jersey | +6.3 |
| 25. | Montana | +5.9 |
| 26. | North Carolina | +5.7 |
| 27. | Minnesota | +5.4 |
| | Texas | +5.4 |
| 29. | Missouri | +5.3 |
| 30. | Virginia | +5.1 |
| 31. | Oregon | +4.9 |
| | UNITED STATES | +4.9 |
| 32. | North Dakota | +4.6 |
| 33. | Pennsylvania | +3.8 |
| 34. | Maryland | +3.5 |
| 35. | Kansas | +3.2 |
| 36. | Rhode Island | +2.8 |
| 37. | West Virginia | +2.4 |
| 38. | Michigan | +2.3 |
| | South Dakota | +2.3 |
| 40. | South Carolina | +1.9 |
| 41. | New York | +1.8 |
| 42. | Ohio | +1.6 |
| 43. | Kentucky | +1.4 |
| 44. | Delaware | +1.3 |
| 45. | Idaho | +1.1 |
| 46. | Utah | +1.0 |
| 47. | Louisiana | +0.6 |
| 48. | New Mexico | −0.3 |
| 49. | California | −1.7 |
| | Colorado | −1.7 |

## INDEX TO TABLES

*Numbers refer to the tables.*

Administrative units:
  number of, B-1
Average daily attendance:
  expenditures per pupil, I-8, I-10
  expenditures per pupil, increase in, I-13
  expenditures per pupil as percent of national average, I-9, I-11
  expenditures per pupil as percent of personal income, I-12
  number, B-5
  percent of average daily membership, B-7
  personal income per pupil, E-8
  pupil-teacher ratio, C-6
  school revenue per pupil, G-1, G-2
Average daily membership:
  expenditures per pupil, I-14, I-15
  expenditures per pupil, increase in, I-16
  number, B-6
  percent in average daily attendance, B-7
  percent of school-age population, B-8
  pupil-teacher ratio, C-7

Birth rate, A-12
Buying income:
  households, E-11, E-12, E-13, E-14

Crimes:
  number of, J-8
  percent change, J-9

Deaths:
  infant rate, A-13
Dentists:
  number of, J-7
Debt:
  of state and local governments, H-10
  of state governments, H-8, H-9

Economic opportunity and manpower:
  per-capita federal grants, J-11
Educational attainment:
  adults with less than 5 years of schooling, D-1
  adults with less than 1 year of high school, D-2
  adults with 4 years of high school or more, D-3
  adults with 4 years of college or more, D-4
  median school years completed by adults, D-5
Employment:
  government employees as percent of nonagricultural employees, J-5
  number of federal civil employees, J-3
  number of government employees, J-4

Enrollment:
  fall, B-2
  percent in school lunch program, B-10
  percent of school-age population, B-3
  percent public, B-4
Expenditures:
  education, as percent of personal income, I-4
  education, as percent of total expenditures, I-3
  education, per capita, I-1, I-2
  fire protection, per capita, H-6
  general government, per capita, H-1
  general, state-local government, per capita, H-2
  health and hospitals, per capita, H-4
  higher education, per capita, I-5, I-6
  highways, per capita, H-7
  police protection, per capita, H-5
  school, as percent of personal income, I-12
  school, per pupil in average daily attendance, I-8, I-10
  school, per pupil in average daily membership, I-14, I-15
  vocational education, I-17, I-18
  welfare, per capita, H-3, J-10

Farm income:
  cash receipts, E-10
Federal government:
  economic opportunity and manpower grants, J-11
  expenditures for vocational education, I-17, I-18
  highway grants, J-12
  number of civilian employees, J-3
  percent of enrollment in school lunch program, B-10
  percent of land owned by, J-2
  percent of school revenue from, G-9, G-10
Fire protection:
  expenditures per capita, H-6

Governments (national, state, and local):
  employees as percent of employees in nonagricultural establishments, J-5
  number of employees, J-4

Health and hospitals:
  birth rate, A-12
  death rate of infants, A-13
  expenditures per capita, H-4
  number of dentists, J-7
  number of physicians, J-6
High-school graduates:
  adults with 4 years of high school or more, D-3
  increase in number, D-6
Higher education:
  adults with 4 years of college or more, D-4

change in enrollment, B-12
enrollment, B-11
enrollment, percent studying in home state, B-13, B-14
instructional staff, C-3
noninstructional staff, C-4
state and local expenditures for, per capita, I-6
state expenditures for, per capita, I-5
Highways:
expenditures for, per capita, H-7
federal grants, per capita, J-12
Households:
buying income, E-11
percent with incomes of $10,000 or more, E-14
percent with incomes under $5,000, E-13
percent with incomes under $3,000, E-12

Income:
*See* Farm income; Personal income
Instructional staff:
number in higher education, C-3
number in public schools, C-1
salaries, C-15, C-17
salaries, increase in, C-19, C-20
salaries, percent of national average, C-16, C-18

Local and state governments combined:
*See* State and local governments combined
Local governments:
percent of school revenue from, G-5, G-6
property tax revenue, local, as percent of state-local, F-9
property tax revenue, per capita, F-7
school revenue, as percent of state-local, G-11
tax revenue, per capita, F-12
Lunch (school) program:
percent of enrollment participating, B-10

Men teachers:
percent of all teachers, C-8

Noninstructional staff:
number in higher education, C-4
number in public schools, C-2

Personal income:
buying income per household, E-11
family income, E-15
government employment income as percent of total, E-9
household incomes of $10,000 or more, E-14
household incomes under $5,000, E-13
household incomes under $3,000, E-12
per capita, E-3
per-capita increase, E-5, E-6
per capita, percent of national average, E-4
per child of school age, E-7
per pupil in average daily attendance, E-8
percent from government employment, E-9
school expenditures as percent of, I-12
school revenue as percent of, G-3
state and local expenditures for education as percent of, I-4
state and local property tax revenue as percent of, F-9
state and local school revenue as percent of, G-4
state and local tax revenue as percent of, F-5
state tax revenue as percent of, F-13
tax revenue as percent of, F-5
total, E-1
total, percent change in, E-2
Physicians:
number of, J-6
Police protection:
expenditures for, per capita, H-5
Population:
age 65 and older as percent of total, A-10
age 65 and older, percent increase, A-11
age 21-64, A-8
density, A-14
educational attainment, D-1, D-2, D-3, D-4, D-5
migration rate, A-4
percent black, A-5
percent in central cities of SMSA's, A-16
school age, A-6
school age, number per 100 age 21-64, A-9
school age, percent of total, A-7
total, A-1, A-2
total, change in, A-3
urban, percent, A-15
Public welfare:
expenditures per capita, H-3
Pupil-teacher ratio, C-5

Retail sales:
per capita, J-1
Revenue:
school revenue as percent of personal income, G-3
school revenue per pupil in average daily attendance, G-1, G-2
state and local governments combined, F-1
of state and local governments from own sources, F-2, F-3
*See also* School revenue; Tax revenue

Salaries:
instructional staff, C-15, C-17
instructional staff, increase in, C-19, C-20
instructional staff, percent of national average, C-16, C-18
teachers, C-9, C-11

teachers, increase in, C-13, C-14
teachers, percent of national average, C-10, C-12
School-age population:
number, A-6
number per 100 age 21-64, A-9
percent enrolled in school, B-3
percent in average daily membership, B-8
percent of total population, A-7
personal income per child, E-7
School districts:
number of, B-1
School expenditures:
per pupil in average daily attendance, I-8, I-10
per pupil in average daily attendance as percent of national average, I-9, I-11
per pupil in average daily attendance, increase in, I-13
per pupil in average daily membership, I-14, I-15
per pupil in average daily membership, increase in, I-16
as percent of personal income, I-12
state, I-1
state and local, I-2, I-7
state and local as percent of all expenditures, I-3
state and local as percent of personal income, I-4
School lunch program:
percent of enrollment participating, B-10
School revenue:
local as percent of state-local, G-11
per pupil in average daily attendance, G-1, G-2
percent from federal government, G-9, G-10
percent from local governments, G-5, G-6
percent from state governments, G-7, G-8
as percent of personal income, G-3
state and local, as percent of personal income, G-4
School term:
length of, B-9
Staff, instructional:
number in higher education, C-3
number in public schools, C-1
salaries, C-15, C-17
salaries, increase in, C-19, C-20
salaries, percent of national average, C-16, C-18
Staff, noninstructional:
number in higher education, C-4
number in public schools, C-2
State and local governments combined:
debt, H-10
expenditures for education, I-2
expenditures for education as percent of all expenditures, I-3
expenditures for education as percent of personal income, I-4
expenditures for schools, I-7
expenditures for higher education, I-6
fire protection expenditures per capita, H-6
general expenditures, per capita, H-2
general revenue per capita, F-1, F-2
health and hospital expenditures per capita, H-4
highway expenditures per capita, H-7
percent of revenue from own sources, F-3
police protection expenditures per capita, H-5
property tax revenue, F-6
property tax revenue, percent of personal income, F-9
property tax revenue, percent of total tax revenue, F-8
school revenue, local as percent of state-local, G-11
school revenue, percent of personal income, G-4
tax revenue as percent of personal income, F-5
total tax revenue per capita, F-4
welfare expenditures per capita, H-3
State governments:
debt, H-8, H-9
expenditures for education, I-1
expenditures for higher education, I-5
general expenditures per capita, H-1
percent of school revenue from, G-7, G-8
tax revenue per capita, F-10, F-11
tax revenue as percent of personal income, F-13

Tax revenue:
local, F-12
property tax revenue, F-6, F-7
property tax revenue as percent of personal income, F-9
property tax revenue as percent of total tax revenue, F-8
property tax revenue, local, F-7
state, as percent of personal income, F-13
state, F-10, F-11
total state and local, as percent of personal income, F-5
total state and local, F-4
Teachers:
percent men, C-8
pupil-teacher ratio, C-5
salaries, C-9, C-11
Term (school):
length of, B-9

Vocational education:
expenditures for, I-17
percent of expenditures from federal funds, I-18

Welfare:
expenditures per capita, H-3
per-capita federal grants, J-10

## INTRODUCTION

THE FIGURES used in the tables of rankings are the latest available. Some are estimates, prepared in advance of detailed reports, and hence are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Readers are cautioned against making conclusions based on slight differences among states in rankings on a specific item, and against using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1974-75 estimates for certain items are given along with 1975-76 estimates.

The national totals shown in most tables include the District of Columbia; figures for the District are shown along with those for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands when they are available. This listing begins on page 75.

Each section of this report consists of a list of definitions appropriate to the tables, a list of sources (complete citations), and the tables. Appended to each table are the sources in abbreviated form.

The states are ranked beginning with the largest figure. When figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

Dollar amounts for Alaska should be reduced by 25 percent and those for Hawaii by 19 percent to make the purchasing power of Alaska and Hawaii figures generally comparable to figures reported for other areas of the United States. This is noted in the tables where it applies.

It should be noted that Tables E-15, E-16, E-17, E-18, and J-1 consist of data from the Sales Management Survey of Buying Power, a copyrighted work. Anyone wishing to reproduce these tables must get permission direct from Sales Management, 630 Third Avenue, New York, New York 10017.

## A. POPULATION

1–Total Resident Population, July 1, 1974 ..... 8

2–Provisional Estimate of Total Resident Population, July 1, 1975 ..... 8

3–Percent Change in Total Resident Population, 1970-1975 ..... 8

4–Net Migration Rate of Resident Population, April 1, 1970, to July 1, 1973 ..... 9

5–Percent of Population That Is Black, 1970 ..... 9

6–Estimated School-Age Population, July 1, 1975 ..... 9

7–Estimated School-Age Population as Percent of Total Population, 1975 ..... 10

8–Percent of Total Resident Population Aged 21-64 in 1975 ..... 10

9–Number of School-Age Children per 100 Adults Age 21-64 in 1975 ..... 10

10–Percent of Population Age 65 or Older, July 1, 1975 ..... 11

11–Percent Increase in Population 65 Years of Age and Older, 1970 to 1975 ..... 11

12–Birth Rates, 1974 (Provisional) ..... 11

13–Estimated Number of Infant Deaths Under One Year per 1,000 Live Births, 1974 ..... 12

14–Population per Square Mile of Land Area, 1975 ..... 12

15–Percent of Population That Is Urban, 1974 ..... 12

16–Percent of Population in Central Cities of Standard Metropolitan Statistical Areas, 1970 ..... 13

**Definitions**

BIRTH RATE: number of births per 1,000 population (excluding armed forces abroad).

LAND: dry land and land temporarily or partially covered by water, as marshland, swamps, etc.; streams and canals under one-eighth statute mile wide; and lake reservoirs, ponds under 40 acres of area.

NET MIGRATION RATE: The difference between in-migration and out-migration as a percent of the population of April 1, 1970. A minus sign indicates a net loss.

RESIDENT POPULATION: includes persons in the armed forces stationed in each area.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive (excluding armed forces abroad).

STANDARD METROPOLITAN STATISTICAL AREA: each SMSA contains at least: (a) One central city with 50,000 inhabitants or more, or (b) A city having a population of at least 25,000 which, together with the population of contiguous places (incorporated or unincorporated) having a population density of at least 1,000 persons per square mile, constitutes for general economic and social purposes a single community with a combined population of at least 50,000; provided that the county (or counties) in which the city and contiguous places are located has a total population of at least 75,000. (In New England, the cities and towns qualifying for inclusion in an SMSA must have a combined population of at least 75,000.)

The SMSA includes the county in which the central city is located, and adjacent counties that are found to be metropolitan in character and economically and socially integrated with the county of the central city. In New England, the requirement with regard to a central city as a nucleus still holds, but, as noted above, the units comprising the area are cities and towns rather than counties. The county (or town in New England) is the basic statistical unit. An SMSA may contain more than one city of 50,000 (or 25,000) inhabitants. The largest city is always included in the title of the area; however, the title may include the names of one or two additional cities. An SMSA may cross state lines.

URBAN POPULATION: persons living in (a) places of 2,500 inhabitants or more incorporated as cities, boroughs, villages, and towns (except towns in New England, New York and Wisconsin); (b) the densely settled urban fringe, whether incorporated or unincorporated, or urbanized areas; (c) towns in New England and townships in New Jersey and Pennsylvania which contain no incorporated municipalities as subdivisions and have either 25,000 inhabitants or more or a population of 2,500 to 25,000 and a density of 1,500 or more per square mile; (d) counties in states other than the New England states, New Jersey, and Pennsylvania that have no incorporated municipalities within their boundaries and have a density of 1,500 persons or more per square mile; and (e) unincorporated places of 2,500 inhabitants or more.

## B. ENROLLMENT AND ATTENDANCE

1–Number of Basic Administrative Units (Operating School Districts), 1975-76 ..... 16

2–Public School Enrollment, Fall 1975 ..... 16

3–Fall 1975 Enrollment in Public Schools as Percent of School-Age Population, July 1, 1975 ..... 16

4–Public-School Enrollment as Percent of Total School Enrollment, Fall 1974 ..... 17

5–Average Daily Attendance in Public Schools, 1975-76 ..... 17

6–Average Daily Membership in Public Schools, 1975-76 ..... 17

7–Average Daily Attendance as Percent of Average Daily Membership, 1975-76 ..... 18

8–Average Daily Membership as Percent of Fall Enrollment, 1975-76 ..... 18

9–Average Length of Public-School Term in Days, 1971-72 ..... 18

10–Percent of Public and Private Elementary- and Secondary-School Enrollment Participating in Federally Subsidized School Lunch Program, 1974 ..... 19

11–Total Enrollment in Institutions of Higher Education, Fall 1973 ..... 19

12–Percent Change in Total Enrollment in Institutions of Higher Education, 1972 to 1973 ..... 19

13–Percent of College Students in a State Who Are Residents of the State, Fall 1972 ..... 20

14–Percent of Students in Institutions of Higher Education Who Are Women, Fall 1973 ..... 20

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

AVERAGE LENGTH OF SCHOOL TERM: computed by dividing the aggregate days of attendance by the average number of days schools were in session and pupils were in attendance during the year; some states reported the state mandated minimum number of days rather than the computed average number of days the schools were open.

BASIC ADMINISTRATIVE UNIT: the local school district, the unit for the operation of elementary and secondary schools or for contracting for school services.

COLLEGE STUDENTS: students taking work creditable toward a bachelor's or higher degree.

ENROLLMENT: a cumulative count of the number of different pupils registered during the entire school year; new entrants are added, but those leaving are not subtracted.

ENROLLMENT IN HIGHER EDUCATION: includes students whose programs of study are creditable toward a bachelor's or higher degree and also students in 1-, 2-, or 3-year undergraduate programs which are not creditable toward a bachelor's or higher degree but which are designed to prepare for immediate employment or to provide general education.

ENROLLMENT PARTICIPATING IN SCHOOL LUNCH PROGRAM: represents average number of children participating in December. The number of children may have been higher in some states during other months but December was the peak month in terms of children participating nationally.

FALL ENROLLMENT: the count of the pupils registered in the fall of the school year, usually October; junior colleges are omitted.

INDEMNITY PLAN: a subsidy program to expand markets for agricultural products, maintain outlets for government-owned commodities, and support school-lunch programs. Sponsors of school-lunch programs are reimbursed by the federal government for local purchases of food on a basis of quality and quantity of meals served.

SCHOOL-AGE POPULATION: population age 5 through 17, inclusive.

## C. TEACHERS

1–Total Instructional Staff (Full-Time Equivalent) in Local Public Schools, October 1974 ..... 23

2–Total Non-Instructional Staff (Full-Time Equivalent) in Local Public Schools, October 1974 ..... 23

3–Total Instructional Staff (Full-Time Equivalent) in Public Institutions of Higher Education, October 1974 ..... 23

4–Total Non-Instructional Staff (Full-Time Equivalent) in Public Institutions of Higher Education, October 1974 ..... 24

5–Pupils Enrolled per Teacher in Public Elementary and Secondary Schools, Fall 1974 ... 24

6–Pupils in Average Daily Attendance per Teacher in Public Elementary and Secondary Schools, Fall 1974 ..... 24

7–Pupils in Average Daily Membership in Public Elementary and Secondary Schools, Fall 1974 ..... 25

8–Percent of Public-School Teachers Who Are Men, 1975-76 ..... 25

9–Estimated Average Salaries of Teachers in Public Schools, 1974-75 (Revised) ..... 25

10–Estimated Average Salaries of Public-School Teachers as Percent of National Average, 1974-75 (Revised) ..... 26

11–Estimated Average Salaries of Public-School Teachers, 1975-76 ..... 26

12–Average Salaries of Public-School Teachers as Percent of National Average, 1975-76 ... 26

13–Percent Increase in Average Salaries of Public-School Teachers, 1965-66 to 1975-76 ..... 27

14–Percent Increase in Average Salaries of Public-School Teachers, 1974-75 to 1975-76 ..... 27

15–Estimated Average Salaries of Instructional Staff in Public Schools, 1974-75 (Revised) ..... 27

16–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1974-75 (Revised) ..... 28

17–Estimated Average Salaries of Instructional Staff in Public Schools, 1975-76 ..... 28

18–Estimated Average Salaries of Instructional Staff as Percent of National Average, 1975-76 ..... 28

19–Percent Increase in Instructional Staff Salaries, 1965-66 to 1975-76 ..... 29

20–Percent Increase in Instructional Staff Salaries, 1974-75 to 1975-76 ..... 29

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

INSTRUCTIONAL STAFF: Number of positions, not the number of different individuals occupying the positions during the school year. In local schools includes all public elementary and secondary (junior and senior high) day school positions (or full-time equivalents) which are in the nature of teaching or in the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, health services personnel, clerical personnel, and junior college staff. In institutions of higher education includes those engaged in teaching and related academic research in colleges and universities, including those in hospitals, agricultural experiment stations, and farms.

NON-INSTRUCTIONAL STAFF: In local schools includes administrative and clerical personnel, plant operation and maintenance employees, bus drivers, lunchroom, health, and recreational personnel engaged by school systems. In institutions of higher education includes cafeteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

16–Percent of Households with Effective Buying Income Under $3,000 in 1974 ..... 40

17–Percent of Households with Effective Buying Income Under $5,000 in 1974 ..... 40

18–Percent of Households with Effective Buying Income of $25,000 or More in 1974 ..... 40

19–Median Family Income, 1970 ..... 41

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

EFFECTIVE BUYING INCOME: same as disposable personal income; is obtained by deducting from personal income direct personal taxes and certain other nontax payments to government. The personal taxes deducted include federal, state, and local income taxes, estate and gift taxes, and miscellaneous licenses and permits. Property taxes are not deducted.

HOUSEHOLD: a unit which includes all persons occupying a house, apartment, or room regarded as a dwelling unit, excluding group quarters such as dormitories.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pensions, health, and welfare funds.

SCHOOL-AGE POPULATION: population aged 5 through 17, inclusive.

## F. GOVERNMENTAL REVENUE

1–Per-Capita Total General Revenue of All State and Local Governments, 1973-74 ..... 44

2–Per-Capita General Revenue of State and Local Governments from Own Sources, 1973-74 ..... 44

3–General Revenue of State and Local Governments from Own Sources, 1973-74, as Percent of Personal Income, 1974 ..... 44

4–Per-Capita Total Tax Collections of State and Local Governments, 1973-74 ..... 45

5–State and Local Tax Collections in 1973-74 as a Percent of Personal Income, 1974 ..... 45

6–Per-Capita Property Tax Revenue of State and Local Governments, 1973-74 ..... 45

7–Per-Capita Property Tax Revenue of Local Governments, 1973-74 ..... 46

8–Property Tax Revenue of State and Local Governments as Percent of Total Tax Revenue of These Governments, 1973-74 ..... 46

9–State and Local Property Tax Collections in 1973-74 as Percent of Personal Income in 1974 ..... 46

10–Per-Capita State Tax Revenue, 1974 ..... 47

11–Per-Capita Local Tax Collections, 1973-74 ..... 47

12–State Tax Revenue in 1973-74 as Percent of Personal Income in 1974 ..... 47

**Definitions**

GENERAL REVENUE: all revenue of a government except the kinds of revenue classified as utility revenue, liquor stores revenue, and insurance trust revenue. All tax collections, even if designated for insurance trust or local utility purposes are classified under general revenue.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

PROPERTY TAXES: taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates), and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

REVENUE FROM OWN SOURCES: all revenue of a government (taxes and other) except intergovernmental.

TAXES: compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classed as insurance trust revenue. All tax revenue is classified under general revenue and comprises amounts received (including interest and penalties but excluding refunds) from taxes imposed by the recipient government. Amounts received by a government from a tax it imposes are counted as tax revenue of that government, even though initially collected by another government: however, any amounts retained are treated as tax revenue of the collecting government. Tax amounts subsequently distributed to other governments are classified as intergovernmental transactions.

## G. SCHOOL REVENUE

1–Public-School Revenue Receipts per Pupil in Average Daily Attendance, 1974-75 (Revised) ..... 50

2–Public-School Revenue Receipts per Pupil in Average Daily Attendance, 1975-76 ..... 50

3–Public-School Revenue Receipts, 1974-75, as Percent of Personal Income, 1974 ..... 50

4–Local and State Revenue Receipts for Public Schools in 1974-75 as Percent of Personal Income, 1974 ..... 51

5–Estimated Percent of Revenue for Public Elementary and Secondary Schools from Local Governments, 1974-75 (Revised) ..... 51

6–Estimated Percent of Revenue for Public Elementary and Secondary Schools from Local Governments, 1975-76 ..... 51

7–Estimated Percent of Revenue for Public Elementary and Secondary Schools from State Governments, 1974-75 (Revised) 52

8–Estimated Percent of Revenue for Public Elementary and Secondary Schools from State Governments, 1975-76 ..... 52

9–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1974-75 (Revised) ..... 52

10–Estimated Percent of Revenue for Public Elementary and Secondary Schools from the Federal Government, 1975-76 ..... 53

11–Local Public-School Revenue as Percent of State and Local School Revenue, 1975-76 ..... 53

**Definitions**

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds and private pension, health, and welfare funds.

REVENUE: revenue receipts for public-school purposes from LOCAL, intermediate and other sources include all funds for direct expenditure by local and intermediate districts: for the school services, for the operation of intermediate departments of education, for employer contributions to retirement systems and/or social security on behalf of public-school employees, for the purchase of materials for distribution to local districts, etc. Includes net receipts from revolving funds or clearing accounts only when such funds are available for general expenditure by the local board of education. Includes gifts and tuition and fees received from patrons.

Revenue receipts from STATE sources include all funds for the operation of the state department of education, for state (employer) contributions to retirement systems and/or social security on behalf of public-school employees for grants in aid to intermediate and local school districts for school purposes (including funds available from state bond issues for such grants and the costs of textbooks, buses, supplies, etc. purchased by the state for distribution to local school districts), for the payment of interest on state bonds issued to provide grants to local school districts, and all other state revenue for public-school purposes. Money collected by the state as an agent of a lesser unit and turned over in like amounts to that unit is not included.

Revenue receipts from FEDERAL sources include money distributed from the federal treasury either directly to local school districts or through the state and county, including grants for vocational education, for aid to federally affected areas, for National Defense Education Act programs, for school lunch and milk programs, for educating Indians in local public schools, and money derived from federal forest reserves and federal oil royalties. (No special effort is made to include amount of grants in kind, for example, for operation of the school lunch program.)

REVENUE RECEIPTS: includes all revenue receipts available for expenditures for current expenses, capital outlay, and debt service for public schools, including all appropriations from general funds of federal, state, county, and local governments, receipts from taxes levied for school purposes, income from permanent school funds and endowments, income from leases of school lands, interest on bank deposits, tuition, gifts, etc. Amounts which increase the school indebtedness or which represent exchange of school property for money are excluded.

## H. GOVERNMENTAL EXPENDITURES AND DEBT

1–Per-Capita Total General Expenditures of the States for All Functions, 1973-74 ..... 56

2–Per-Capita Total General Expenditures of State and Local Governments, 1973-74 ..... 56

3–Per-Capita Expenditure of State and Local Governments for Public Welfare, 1973-74 ..... 56

4–Per-Capita Expenditures of State and Local Governments for Health and Hospitals, 1973-74 ..... 57

5–Per-Capita Expenditures of State and Local Governments for Police Protection, 1973-74 ..... 57

6–Per-Capita Expenditure of State and Local Governments for Fire Protection, 1973-74 ..... 57

7–Per-Capita Expenditures of State and Local Governments for Highways, 1973-74 ..... 58

8–Per-Capita Net Long-Term Debt (Full Faith and Credit Only) of State Governments at End of Fiscal Year, 1974 ..... 58

9–Per-Capita Net Long-Term Debt of State Governments at End of Fiscal Year, 1974 .... 58

10–Per-Capita Debt of State and Local Governments Outstanding at End of Fiscal Year, 1973-74 ..... 59

**Definitions**

DEBT: the major portion of all state and local government debt is long-term indebtedness. A substantial portion of such long-term debt is nonguaranteed debt, i.e., obligations payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes.

EXPENDITURES: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FIRE PROTECTION: comprises fire fighting and fire protection activities of local governments. Federal and state expenditures for forest fire fighting and prevention are classified under "natural resources."

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

GENERAL EXPENDITURE: all expenditure of a government other than utility expenditure, liquor stores expenditure, and insurance-trust expenditure.

HEALTH: health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

HIGHWAYS: streets, highways, and structures necessary for their use, street lighting, snow and ice removal, toll highway and bridge facilities, and ferries.

HOSPITALS: establishment and operation of hospital facilities, provision of hospital care, and support of other public or private hospitals.

NET LONG-TERM DEBT: total long-term debt outstanding minus offsets to long-term debt, which comprise financial assets of sinking funds and other reserve funds, however designated, which are specifically held for retirement of long-term debt. Full faith and credit includes all long-term credit obligations of the government and its agencies backed by full faith and credit (implying the power of taxation).

POLICE PROTECTION: preservation of law and order and traffic safety. Includes highway police patrols, crime prevention activities, police communications, detention and custody of persons awaiting trial, traffic safety, vehicular inspection and the like.

PUBLIC WELFARE: support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include cash assistance payments directly to needy persons under categorical and other welfare programs; vendor payments made directly to private purveyors for medical care, burials, and other services provided under welfare programs; welfare institutions; and any intergovernmental or other direct expenditure for welfare purposes. Any services provided directly by the government through its hospital and health agencies are classed under those headings.

## I. SCHOOL EXPENDITURES

1–Per-Capita State Expenditures for All Education, 1974 ..... 62

2–Per-Capita Total Expenditures of State and Local Governments for All Education 1973-74 ..... 62

3–State and Local Government Expenditures for All Education as Percent of Direct Expenditures for All Functions, 1973-74 ..... 62

4–State and Local Government Expenditures for All Education in 1973-74 as Percent of Personal Income in 1974 ..... 63

5–State Expenditures for State Institutions of Higher Education per Capita of Population, 1974 ..... 63

6–Per-Capita State and Local Government Expenditures for Higher Education, 1973-74 ..... 63

7–Per-Capita State and Local Expenditures for Local Schools (including Capital Outlay), 1973-74 ..... 64

8–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1974-75 (Revised) ..... 64

9–Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance as Percent of National Average, 1974-75 (Revised) ..... 64

10–Estimated Current Expenditures for Public Elementary and Secondary Schools per Pupil in Average Daily Attendance, 1975-76 ..... 65

11–Current Expenditures per Public-School Pupil in Average Daily Attendance as Percent of National Average, 1975-76 ..... 65

12–Total Current Expenditures for Public Elementary and Secondary Schools in 1974-75 as Percent of Personal Income in 1974 ..... 65

13–Percent Increase in Estimated Current Expenditure per Pupil in Average Daily Attendance, 1965-66 to 1975-76 ..... 66

14–Current Expenditures per Pupil in Average Daily Membership, 1974-75 (Revised) ..... 66

15–Current Expenditures per Pupil in Average Daily Membership, 1975-76 ..... 66

16–Percent Increase in Current Expenditure per Pupil in Average Daily Membership, 1965-66 to 1975-76 ..... 67

17–Current Expenditure per Pupil in Average Daily Attendance for Transportation Services, 1972-73 ..... 67

18–Total Expenditures for Vocational Education from Federal and Matching Funds, Fiscal Year 1974 ..... 67

19–Percent of Expenditures for Vocational Education from Federal Funds, Fiscal Year 1974 ..... 68

## Definitions

AVERAGE DAILY ATTENDANCE: average of pupils attending when schools are actually in session.

AVERAGE DAILY MEMBERSHIP: an average of the pupils belonging, those present plus those absent, when schools are actually in session.

CURRENT EXPENDITURES: all amounts spent at all levels of administration—state, intermediate, and basic local—for public elementary and secondary day schools for administration, instructional services, plant operation and maintenance, fixed charges, and other school services (attendance, health services, transportation, food services, etc.). Includes the cost of operating the state department of education and the intermediate (county) departments of education; employers' (state, intermediate, and local) contributions to retirement systems and/or social security on behalf of public-school employees; and federal, state, and local funds expended to cover deficit (gross expenditure less sales) of school lunch and milk programs.

EDUCATION: provision or support of schools and other educational facilities and services.

EXPENDITURES: all amounts of money paid out by a government—net of recoveries and other correcting transactions—other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provision of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

FUNCTIONS: public purposes served by governmental activities (education, highways, public welfare, etc.). Expenditure for each function includes amounts for all types of expenditure serving the purpose concerned.

HIGHER EDUCATION: includes facilities and activities of all educational institutions beyond the high-school level operated by state or local governments, except that agricultural experiment stations and agricultural extension services are classed under natural resources, and university-operated hospitals serving the public are classed under hospitals. These educational categories include related services such as pupil transportation, school milk and lunch programs, cafeterias, health and recreational programs, and the like. Revenue and expenditure for school lunch services, dormitories, athletic events, and other auxiliary services are included on a gross basis.

PERSONAL INCOME: state personal income is the current income received by residents of the states from all sources, including transfers from government and business, but excluding transfers among persons. It is a before-tax measure. The total includes non-monetary income or income received in kind. The figures include income of individuals and also income of nonprofit institutions, private trust funds, and private pension, health, and welfare funds.

## INDEX TO TABLES

*Numbers refer to tables.*

Administrative units:
  number of, B-1
Average daily attendance:
  expenditures per pupil, I-8, I-10
  expenditures per pupil, increase in, I-13
  expenditures per pupil as percent of national average, I-9, I-11
  expenditures per pupil as percent of personal income, I-12
  number, B-5
  percent of average daily membership, B-7
  personal income per pupil, E-12
  pupil-teacher ratio, C-6
  school revenue per pupil, G-1, G-2
Average daily membership:
  expenditures per pupil, I-14, I-15
  expenditures per pupil, increase in, I-16
  number, B-6
  percent in average daily attendance, B-7
  percent of fall enrollment, B-8
  pupil-teacher ratio, C-7

Birth rate, A-12
Buying income:
  households, E-15, E-16, E-17, E-18

Crimes:
  number of, J-8
  percent change, J-9

Deaths:
  infant rate, A-13
Dentists:
  number of, J-7
Debt:
  of state and local governments, H-10
  of state governments, H-8, H-9

Economic opportunity and manpower:
  per-capita federal grants, J-11
Educational attainment:
  adults with less than 5 years of schooling, D-1
  adults with less than 1 year of high school, D-2
  adults with 4 years of high school or more, D-3
  adults with 4 years of college or more, D-4
  median school years completed by adults, D-5
Employment:
  government employees as percent of nonagricultural employees, J-5
  number of federal civil employees, J-3
  number of government employees, J-4

Enrollment:
  fall, B-2
  percent in school lunch program, B-10
  percent in average daily membership, B-8
  percent of school-age population, B-3
  percent public, B-4
Expenditures:
  education, as percent of personal income, I-4
  education, as percent of total expenditures, I-3
  education, per capita, I-1, I-2, I-7
  fire protection, per capita, H-6
  general state government, per capita, H-1
  general, state-local government, per capita, H-2
  health and hospitals, per capita, H-4
  higher education, per capita, I-5, I-6
  highways, per capita, H-7
  police protection, per capita, H-5
  school, as percent of personal income, I-12
  school, per pupil in average daily attendance, I-8, I-10
  school, per pupil in average daily membership, I-14, I-15
  transportation services, I-17
  vocational education, I-18, I-19
  welfare, per capita, H-3, J-10

Family income, E-19
Farm income:
  cash receipts, E-14
Federal government:
  economic opportunity and manpower grants, J-11
  expenditures for vocational education, I-18, I-19
  highway grants, J-12
  number of civilian employees, J-3
  percent of enrollment in school lunch program, B-10
  percent of land owned by, J-2
  percent of school revenue from, G-9, G-10
Fire protection:
  expenditures per capita, H-6

Governments (national, state, and local):
  employees as percent of employees in nonagricultural establishments, J-5
  number of employees, J-4

Health and hospitals:
  birth rate, A-12
  death rate of infants, A-13
  expenditures per capita, H-4
  number of dentists, J-7
  number of physicans, J-6
High-school graduates:
  adults with 4 years of high school or more, D-3
  change in number, D-6

Higher education:
adults with 4 years of college or more, D-4
change in enrollment, B-12
enrollment, B-11
enrollment, percent studying in home state, B-13.
instructional staff, C-3
noninstructional staff, C-4
state and local expenditures for, per capita, I-6
state expenditures for, per capita, I-5
Highways:
expenditures for, per capita, H-7
federal grants, per capita, J-12
Households:
buying income, E-15
percent with incomes of $25,000 or more, E-18
percent with incomes under $5,000, E-17
percent with incomes under $3,000, E-16

Income:
*See* Farm income; Personal income
Instructional staff:
number in higher education, C-3
number in public schools, C-1
salaries, C-15, C-17
salaries, increase in, C-19, C-20
salaries, percent of national average, C-16, C-18

Local and state governments combined:
*See* State and local governments combined
Local governments:
percent of school revenue from, G-5, G-6
property tax revenue, local, F-7
property tax revenue, per capita, F-6, F-7
school revenue, as percent of state-local, G-11
tax revenue, per capita, F-10, F-11
Lunch (school) program:
percent of enrollment participating, B-10

Men teachers:
percent of all teachers, C-8

Noninstructional staff:
number in higher education, C-4
number in public schools, C-2

Personal income:
buying income per household, E-15
disposable, per capita, E-8
disposable, percent change in per capita, E-10
disposable, percent of national average, E-9
disposable, total, E-7
family income, E-19
general revenue of state and local governments as percent of, F-3
government employment income as percent of total, E-13
household incomes of $25,000 or more, E-18
household incomes under $5,000, E-17
household incomes under $3,000, E-16
per capita, E-3
per-capita change, E-5, E-6
per capita, percent of national average, E-4
per child of school age, E-11
per pupil in average daily attendance, E-12
percent from government employment, E-13
school expenditures as percent of, I-12
school revenue as percent of, G-3
state and local expenditures for education as percent of, I-4
state and local property tax revenue as percent of, F-9
state and local school revenue as percent of, G-4
state and local tax revenue as percent of, F-5
state tax revenue as percent of, F-12
tax revenue as percent of, F-5
total, E-1
total, percent change in, E-2
Physicians:
number of, J-6
Police protection:
expenditures for, per capita, H-5
Population:
age 65 and older as percent of total, A-10
age 65 and older, percent increase, A-11
age 21-64, A-8
density, A-14
educational attainment, D-1, D-2, D-3, D-4, D-5
migration rate, A-4
percent black, A-5
percent in central cities of SMSA's, A-16
school age, A-6
school age, number per 100 age 21-64, A-9
school age, percent of total, A-7
total, A-1, A-2
total, change in, A-3
urban, percent, A-15
Public welfare:
expenditures per capita, H-3
Pupil-teacher ratio, C-5

Retail sales:
per capita, J-1
Revenue:
school revenue as percent of personal income, G-3
school revenue per pupil in average daily attendance, G-1, G-2
state and local governments combined, F-1
of state and local governments from own sources, F-2
*See also* School revenue; Tax revenue

Salaries:
instructional staff, C-15, C-17

instructional staff, increase in, C-19, C-20
instructional staff, percent of national average, C-16, C-18
teachers, C-9, C-11
teachers, increase in, C-13, C-14
teachers, percent of national average, C-10, C-12
School-age population:
number, A-6
number per 100 age 21-64, A-9
percent enrolled in school, B-3
percent of total population, A-7
personal income per child, E-11
School districts:
number of, B-1
School expenditures:
per pupil in average daily attendance, I-8, I-10
per pupil in average daily attendance as percent of national average, I-9, I-11
per pupil in average daily attendance, increase in, I-13
per pupil in average daily membership, I-14, I-15
per pupil in average daily membership, increase in, I-16
as percent of personal income, I-12
state, I-1
state and local, I-2, I-7
state and local as percent of all expenditrues, I-3
state and local as percent of personal income, I-4
School lunch program:
percent of enrollment participating, B-10
School revenue:
local as percent of state-local, G-11
per pupil in average daily attendance, G-1, G-2
percent from federal government, G-9, G-10
percent from local governments, G-5, G-6
percent from state governments, G-7, G-8
as percent of personal income, G-3
state and lcoal, as percent of personal income, G-4
School term:
length of, B-9
Staff, instructional:
number in higher education, C-3
number in public schools, C-1
salaries, C-15, C-17
salaries, increase in, C-19, C-20
salaries, percent of national average, C-16, C-18
Staff, noninstructional:
number in higher education, C-4
number in public schools, C-2
State and lcoal governments combined:
debt, H-10
expenditures for education, I-2
expenditures for education as percent of all expenditures, I-3
expenditures for education as percent of personal income, I-4
expenditures for schools, I-7
expenditures for higher education, I-6
fire protection expenditures per capita, H-6
general expenditures, per capita, H-2
general revenue per capita, F-1, F-2
health and hospital expenditures per capita, H-4
highway expenditures per capita, H-7
police protection expenditures per capita, H-5
property tax revenue, F-6
property tax revenue as percent of personal income, F-9
property tax revenue as percent of total tax revenue, F-8
school revenue, local as percent of state-local, G-11
school revenue as percent of personal income, G-4
tax revenue as percent of personal income, F-5
total tax revenue per capita, F-4
welfare expenditures per capita, H-3
State governments:
debt, H-8, H-9
expenditures for education, I-1
expenditures for higher education, I-5
general expenditures per capita, H-1
percent of school revenue from, G-7, G-8
tax revenue per capita, F-10
tax revenue as percent of personal income, F-12

Tax revenue:
local, F-11
property tax revenue, F-6, F-7
property tax revenue as percent of personal income, F-9
property tax revenue as percent of total tax revenue, F-8
property tax revenue, local, F-7
state, as percent of personal income, F-13
state, F-10
total state and local, as percent of personal income, F-5
total state and local, F-4
Teachers:
percent men, C-8
pupil-teacher ratio, C-5
salaries, C-9, C-11
Term (school):
length of, B-9
Transportation services:
expenditures for, I-17

Vocational education:
expenditures for, I-18
percent of expenditures from federal funds, I-19

Welfare:
expenditures per capita, H-3
per-capita federal grants, J-10

Women:
percent of college students, B-14

## RANKINGS OF THE STATES, 1977

WHILE THE FIGURES used in these tables of rankings are the latest available, some are estimates prepared in advance of detailed reports and as such are subject to revision. Some are based on sampling studies, for which measures of sampling variability are not recorded here. Please exercise caution when making conclusions based on slight differences among states in rankings on a specific item and when using the data or rankings in trend research since generally the series is not revised when final figures become available. However, revised 1975-76 estimates for certain items are given along with 1976-77 estimates.

The states are ranked beginning with the largest figure. When figures for two or more states are identical, the states are listed alphabetically and given the same rank; the appropriate number is then picked up with the next state in rank.

The national totals shown in most tables do not include the District of Columbia; figures for the District are shown along with those for American Samoa, Canal Zone, Guam, Puerto Rico, and Virgin Islands when they are available. This listing begins on page 48.

Tables D-15, D-16, and D-17 consist of data from the Sales and Marketing Management Survey of Buying Power, a copyrighted work. Anyone wishing to reproduce these tables must get permission directly from Sales and Marketing Management, 633 Third Avenue, New York, New York 10017.

CONTENTS

A-1 to A-13. Population ..... 3

B-1 to B-15. Enrollment and Attendance ..... 8
